Introduction

Fire & Safety WA is an ISO9001 certified Australian owned and operated business that was established in 2007. Since the beginning we have provided a wide range of Firefighting and other First Responder products, all of which are supported with excellent service. We are dedicated to meeting the needs of our customers in Western Australia. Currently our customer base consists of several local Government entities, all the large Resource companies, other Mining companies and a group of Resellers. We are also pursuing a strategy to compete in the Fire Contractor market with Fire Extinguishers and Fire Detection Systems. Our Landsdale facility consists of twin units, each having two storeys comprising office space and a high bay warehouse. One unit has a purpose-built clean room to assemble fire detection and emergency warning panels and incorporates our fire extinguisher recycling area.

Our Vision

We, at Fire & Safety WA are the distributors of nationally recognised, high quality products and services. We commit ourselves to offering Creative First Response Solutions with an energy that reflects our belief in all that we do. We will consistently provide solutions that meet or exceed the requirements and expectations of our customers in a timely and professional manner. We will adapt to the changing needs of our customers and answer their needs with creative, value for money solutions. We will offer our customers professionalism, integrity, product knowledge and unrivalled service. We will build and maintain close customer relationships to ensure best possible outcomes. Our processes will be subjected to continual review and improvements made to achieve best practice and maximum efficiency in all that we endeavour.

Our Experience

Fire & Safety WA is owned by our Directors, Paul and Kenlie Williams, who have decades of industry and management experience. Our sales professionals have all held sales manager and customer service positions.

Our Objectives

1. Continue to offer excellent products and service in a timely and professional manner.
2. Provide our customers with unparalleled service.
3. Promote Fire & Safety WA as CREATIVE FirstRESPONSE SOLUTIONS.
4. Introduce and promote FirstRESPONSE brand and initial product range.
5. Develop and implement a new website with online shopping.
7. Build our staff’s product knowledge.
8. Build and strengthen relationships with current, new and prospective customers.

Our Products

Our wide product range is unmatched within the industry. We stock and promote well-known brands including Akron Brass, Ansul, DLX, Mercedes Benz, Oliver Boots, Pacific Helmets, Pelican, RESQTEC, Scott Safety, VESDA and Vigilant. Our products groups are:

Ansul
- FireFighting Agents
- Fire Extinguishers
  - Portable
  - Mobile
  - Accessories
  - Fire Blankets
- Fire Detection
  - Fire Detection Systems
  - Emergency Warning Systems
  - VESDA
- Emergency Response
  - Breathing Apparatus
  - Rope Rescue
  - RESQTEC
  - Rescue Equipment
  - Shelters
- FireFighting Equipment
  - Adaptors & Fittings
  - Foam Delivery
  - Hose Reels
  - Hoses
  - Hydrants
  - Monitors
  - Nozzles
- FireFighting Tools
  - Eflares
  - Hand Tools
  - Jerrycans
  - Stowage
  - Torches & Lighting
- FireFighting PPE
  - Apparel
  - Footwear
  - Helmets
  - Gloves
  - Protective Eye Wear
  - General PPE
- Fire Appliances
  - Slip On & Trailers
  - Light Attack
Our Customers

Fire & Safety WA has a sales team that directly promotes to our large number of customers including government agencies, large resource companies and fire contractors. Our customer base includes some major identities such as BHP Billiton, Chevron, ConocoPhillips, Fortescue Metals Group, Rio Tinto and Woodside. Our customers also include various Government and semi-Government bodies including WA Department of Fire and Emergency Services, Local Councils and Volunteer Groups.

Our Core Competencies

Convenience - Customers can walk out of our facility with all the products they need. A speedy courier service is also available. Inhouse Capabilities – We customise fire detection and emergency warning panels at our premises. Recently our fire extinguisher recycling area was commissioned. We offer a highly organised and efficient warehousing system. Quality & Reliability – We only provide reliable, quality products that perform to our customers’ expected standards. Promotion – We create strong marketing material and actively promote our products via online campaigns, our website and one on one meetings. Selection - Providing a range of creative and time/cost saving product solutions not currently available from competitors in the market. Service - Our business provides better service than competitors. Technical Support – Telephone and onsite technical support is available 24/7.

Our Future

Fire & Safety WA has a bright future. The company’s ability to adapt to the changing needs of the various sectors of the community and to answer those various sectors needs with creative value for money solutions will ensure our success and continued growth.
Emergency Response

Y Piece with CEN Couplings
Y Piece with CEN Couplings is constructed from nickel-plated brass, with 2 Female Socket CEN type couplings and 1 male coupling, the Y-piece allows a single length of hose to be split into two branches.

The P4 is one-of-a-kind and a "must have" for any rescue team. It can be converted from being a dedicated spreader to a cutter in just seconds using interchangeable tool attachments. (4272.3003.EE)

NT8 Hybrid Incl. Storage Case
It is the design of the NT Hybrid that is the driving force behind its many features and capabilities. The oval shape forces the bag to stay flat throughout the lift. Its embedded Load Capacity Enhancer (LCE) and Stability Center turns limitations of lifting bags into strengths and ease of use. (8508.0008)

Negative Airblast 16" Variable Speed
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter. (6060.0120)

Multi Tool
The Multi Tool is an accessory to the Restec Profix Max Series. (8410.0600)

Nailing Block
Mounted on the side of a Profix Max’ cylinder or piston to add additional wooden shoring. (8430.0300)

Multi Swivel
The Multi Swivel is an accessory to the Restec Profix Max Series. (8420.3550)

Negative Airblast 16" Honda
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter. (6060.0130)

3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter. (8420.0260)
Mini GXH50 STO 1x1 3SR
The 3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

(3841.1111.XX)

Midi GX100 STO 1x1 3SR+Smart
The 3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

(3642.1122.XX)

Midi GX100 STO 1x1 3SR
The 3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

(3842.1112.XX)

Midi GX100 MTO 2x2 3SR+Smart
The 3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

(3742.1122.XX)

Midi GX100 MTO 2x2 3SR
The 3SR power units have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

(3742.1112.XX)

Med Sled Vertical Lift Rescue Red
The Med Sled Rescue is an innovative, cost-effective rescue device designed specifically for vertical or horizontal lift operations.

(MS-MS36VLR)

Maxi GX160S MTO 3SR STD
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3744.1111.XX)

Maxi GX160S MTO 3SR IHR 2x20M
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3744.4312.XX)

Maxi GX160S MTO 3SR IHR 2x20M
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3744.3312.XX)

Maxi 2.2kW 220/50Hz MTO 3SR STD
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3722.1111.XX)

Maxi 2.2kW 220/50Hz MTO 3SR IHR 2x20M
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3722.4311.XX)

Maxi 2.2kW 220/50Hz MTO 3SR IHR 2x20M
The 3SR power unit is designed to power Resqtec’s double acting hydraulic rescue tools.

(3722.3311.XX)

Mains Power Adapter
Mains Power Adapter allows you to work without batteries. Connected to 110 or 220V, the mains power adapter enables any EDD tool to operate continuously, without interruption.

(4300.1000)

Maillon Rapide Twist Standard Steel - 7mm
Fitted with a 90-degree twist, the Maillon Rapide Twist is ideal for smoother PPE connections, rope access as well as in mountaineering and climbing.

(VMR STSTW07)

Maillon Rapide Twist Large Opening Steel - 8mm
Fitted with a 90-degree twist, the Maillon Rapide Twist is ideal for smoother PPE connections, rope access as well as in mountaineering and climbing.

(VMR LOSTW08)

Maillon Rapide Standard Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.

(VMR STS10)

Marine and Industrial Compliance Set Sigma 2 Type 2 MED App.
Suitable for marine and industrial use including short duration confined space entry.

(SCBACOMPST2)
Maillon Rapide Standard S/Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STSS10)

Maillon Rapide Standard Alloy - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STA10)

Maillon Rapide Large Opening Steel - 10mm
The wider mouth opening makes connecting easier.
(VMR LOS10)

Maillon Rapide Large Opening S/Steel - 10mm
The wider mouth opening makes connecting easier.
(VMR LOSS10)

Maillon Rapide Delta Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DS10)

Maillon Rapide Delta S/Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DSS10)

Maillon Rapide Delta Alloy - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DA10)

Maillon Rapide C Steel - 10mm
Commonly used when connecting oil and chest harnesses.
(VMR CS10)

Life And Motion Tracer LM1
The Life & Motion tracer has been designed and engineered to assist firefighters, USAR teams and other rescue workers with the various rescue applications they encounter.
(9330.0041)

Laminated Glass Saw
Our assist tools and accessories perform potentially dangerous jobs easy and safe.

Boxed Dual Controller (V-Conn)
Accessories for Resqtec's SQ Lifting Bag.
(8700.0500.V)

Bipod Set
The Bipod can be mounted on to any Profix Max product and is an integrated and easy to use shoring device with a powerful 15 tons capacity at a safety factor 4:1.
(8420.2470)

Bipod
The Bipod can be mounted on to any Profix Max product and is an integrated and easy to use shoring device with a powerful 15 tons capacity at a safety factor 4:1.
(8420.2600)

Beam Support
Accessories for the Resqtec The Profix Max Extension Series.
(8420.0210)

Battery Pack 10 EDD
Through EED Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtime.
(4300.0520)

Battery Pack 1 EDD
Through EED Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtime.
(4300.0010)

Battery Charger EDD
Nominal output 50.2 VDC/2.2 A
Nominal input 100-240 VAC
Charge time battery pack 1 EDD 1 hour
Charge time battery backpack 10 EDD 9 hour
Dimensions (L x W x H) 257 x 135 x 105mm (+- 5mm)
Weight 1.1kg
Cable length (wall plug) 1.9m
Cable length (charge plug) 1.4m
Charger adapter assembly Included
(4300.053)
Basic Set NT4
Max. operation pressure 12 bar
Max. lifting capacity 70 tonnes
Insertion height 10 mm / 48 mm
Max. lifting height N x 440 mm
Effective lifting height N x 392 mm
Temperature range -20 °C till +65 °C
Weight 15.5 kg
Safety factor 4
(8700.0140)

Basic Set NT2
Max. operation pressure 12 bar
Max. lifting capacity 26 tonnes
Max. lifting height at max. lifting height 6.2 tonnes
Insertion height 10 mm / 34 mm
Max. lifting height N x 275 mm
Effective lifting height N x 241 mm
Temperature range -20 °C till +65 °C
Weight 6.5 kg
Safety factor 4
(8700.0135)

AV3000HT Medium Face Seal
Scott Safety’s AV-3000 HT facepiece meets all requirements established in the NFPA 1981:2013 Edition standard, with state-of-the-art material technology to provide enhanced thermal durability and voice intelligibility performance for added safety.
(8005243)

Auto Crib-It Car Set Of 2
Lightweight, portable, automatic extension and a maximum load capacity of 1.3 ton are the key characteristics of the Auto Crib-it.
(8400.0310)

Auto Crib-It Car Set Of 2
Lightweight, portable, automatic extension and a maximum load capacity of 1.3 ton are the key characteristics of the Auto Crib-it.
(8400.0320)

Attachment Bag
Accessories for the Resqtec The Profix Max Extension Series
(8462.0150)

ASAP 18 Shelter 4.5M L x 5.5M W x 2.6M H inc Stake Kit Repair Kit
Protective Vinyl
The ASAP Rapid Response Shelters are designed to be compact and the first to be deployed in the field.
(SC1806)

ASAP 18 Insulation Liner
Maximise Climate Control Efficiency with the DLX Insulation Liner Package for the ASAP Rapid Shelter Systems
(RB1806)

ASAP 18 Air Plenum
Maximise Climate Control Efficiency With The Air Plenum Package For The Asap Rapid Shelter Systems
(AP1801)

Anchor Plates (8 holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VCT L6370503)

Anchor Plates (4 Holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VCT L6370303)

Anchor Plates (15 holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VISC RP320A)

Alloy Triplock Karabiner 30 kN
Extra light, drop forged alloy karabiner with triple action gate opening.
(VCT L5300001)

Alloy Triplock Karabiner 30 kN
A large, alloy triplock karabiner supplied with a captive bar.
(VCT2C4650CXSACT001)

Airbag Safety System For Passengers
Our assist tools and accessories perform potentially dangerous jobs easy and safe.
(9340.0013)

Airbag Safety System (3 Pcs) For Trucks And Vans
Our assist tools and accessories perform potentially dangerous jobs easy and safe.
(9340.0012)

Airbag Safety System (2 Pcs) For Cars
Our assist tools and accessories perform potentially dangerous jobs easy and safe.
(9340.0010)

Air Cylinder 300 Bar / 6 Ltr
Accessories for Resqtec’s SQ Lifting Bag
(8200.7505)

Aider Five Step
The Vertical Etrier and Aider four and five step are ideal for recreational aid clipping, rope access and rescue.
(VAS AIDER 5)
Adapter Kit For Alternative Air Sources
Accessories for Resqtec’s SQ Lifting Bag.
(8700.0610)

Accessory Storage Case
Resqtec Accessory Storage Case
(8700.0795)

8mm Arresta Prusik Cord Yellow 25m
Arresta Prusik Cord is supple for handling and knot holding but hard wearing for prolonged use.
(NAR-Q3962R51)

8mm Arresta Prusik Cord Red 50m
Arresta Prusik Cord is supple for handling and knot holding but hard wearing for prolonged use.
(NAR-Q3962Y25)

5M NEO1 Hose Red
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3405RQ)

5M NEO1 Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3005RQ)

5M NEO1 Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3205RQ)

4 Atlas Anchor Bags 12 Liner Straps & Clips Mini Shovel
The DLX Patented Atlas Anchor System is designed to give you maximum operational freedom in the smallest, lightest package possible.
(AB0401)

20M NEO1 Hose Red
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3420RQ)

20M NEO1 Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3020RQ)

20M NEO1 Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power units.
(2600.3220RQ)

20 metre PVC Hose Black with CEN Couplings
Constructed from PVC, these Scott Safety hoses are suitable for general industrial use.
(1051467)

36" Halligan Tool, Standard Claw
The Paratech Halligan Tool has set the standard of excellence for Halligan type tools.
(22-000601)

36" Halligan Tool Metal Cut Chrome
The Paratech Halligan Tool has set the standard of excellence for Halligan type tools.
(22-000623)

20" Flexible Duct 6M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 20" Flexible Duct 6M (inc. Strap).
(6140.0062)

20" Flexible Duct 3M (inc. Strap)
(6140.0061)

18" Flexible Duct 6M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 18" Flexible Duct 6M (inc. Strap).
(6140.0052)

18" Flexible Duct 3M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 18" Flexible Duct 3M (inc. Strap).
(6140.0050)

16" Flexible Duct 6M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 16" Flexible Duct 6M (inc. Strap).
(6140.0042)

16" Flexible Duct 3M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 16" Flexible Duct 3M (inc. Strap).
(6140.0040)
15M Twin Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit. The design of this product will enable firefighters, USAR teams and other rescue workers to work with optimal performance and ease of use.
(2600.4515XX)

15M Twin Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit. The design of this product will enable firefighters, USAR teams and other rescue workers to work with optimal performance and ease of use.
(2600.4615XX)

15M NEO1 Hose Red
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3415RQ)

15M NEO1 Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3015RQ)

15M NEO1 Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3215RQ)

11mm Patron Static Rope (215 m)
White
Red
Teufelberger’s Patron 11mm Static Rope is an exceptionally appealing choice for multiple applications because of its low weight, high breaking strength and low danger of cracking.
(VTB 7360931)

11mm KM-III Static Rope (196 m)
White
The Teufelberger KM-III is an exceptional static rope for rescue, life-safety and fixed rope applications, rappelling, hauling and caving.
(VTB 3300-14)

11mm Aresta Static 200m Blk/Org
Fleck
The Aresta Kernmantle 11mm static rope will get the job done and won’t cost your future.
(NAR-Q9369Q200)

10M Twin Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit. The design of this product will enable firefighters, USAR teams and other rescue workers to work with optimal performance and ease of use.
(2600.4510XX)

10M Twin Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit. The design of this product will enable firefighters, USAR teams and other rescue workers to work with optimal performance and ease of use.
(2600.4610XX)

10M NEO1 Hose Red
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3410RQ)

10M NEO1 Hose Blue
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3210RQ)

10M NEO1 Hose Green
The Resqtec NEO1 and STD couplers and hoses have been designed and engineered to connect Resqtec double acting hydraulic rescue tools to the power unit.
(2600.3010RQ)

0774 3847 Promask PP Left Quick Fit (LQF) Full Face Mask
The Scott Safety Promask PP (positive pressure) LQF (left quick fit) full face respirator is manufactured from halo-butyl (non-dermatatic). The Promask features a wider field for extended field of vision. The front mounted speech diaphragm provides easy communication with colleagues.
(13190)

0200 0585 Sigma 2 Type 2 SCBA - Back plate, Harness, Pneumatics
Approved to EN137:2006 and AS/NZS 1716:2012 Type 2, the Scott Sigma 2 Type 2 Self Contained Breathing Apparatus combines the highest level of respiratory protection in a simple to operate, cost effective piece of equipment that meets the needs of Industrial and Marine firefighters.
(2023034)

0109 3329 Cylinder 6.8L 300 Bar Carbon Fibre T Valve
Scott Safety’s Carbon Fibre Cylinders provide a lightweight solution for containing the air required by Scott Safety Breathing Apparatus.
(1118245T)

416 total products.
Breathing Apparatus

Y Piece with CEN Couplings
Constructed from nickel-plated brass, with 2 Female Socket CEN type couplings and 1 male coupling, the Y-piece allows a single length of hose to be split into two branches. (2003397)

Scott Sight AV3000HT (MED)
Scott Sight is the first of its kind thermal in-mask system. (8005264)

SCBA Propak FX T2 (New 2014 edition) Adjustable Height Swivel
The ultimate in user comfort for the professional firefighter offering all the benefits of the Propak-F with the added feature of an adjustable back plate which means that the unit can be altered to fit the height of the wearer. (2027195)

SCBA Propak T2 (New 2014 edition) Firefighting
The Propak-f has been designed for use by the Fire Service or as a fire fighting set in the Oil & Gas fire fighting market. (2027182)

SCBA Propak Sigma T2 (New 2014 edition)
The Propak-Sigma has been designed specifically for use as a compliance set in Marine or Industrial fire fighting environments. (2027150)

PS200 Portable Gas Monitor LEL, O2, CO/H2S Sensors Pump / Tubing
A robust and accurate portable gas detector, the Personal Surveyor (PS200 Series) provides unrivaled protection in confined space applications with audible and visual alarms in the event of exposure to flammable or toxic gases. (64041)

PS200 Auto Calibration Station
The multifunctional Auto Bump/Calibration station provides simple but intelligent testing and calibration of the PS200 portable gas detector. (64052)

PROPAK-FX-EZ-Flo
ProPak-fx-Ez-Flo is the ultimate in user comfort for the professional fire fighter offering all the benefits of the ProPak-F with the added feature of an adjustable back plate which means that the unit can be altered to fit the height of the wearer. (2031988)

Promask PP Left Quick Fit (LOF) Full Face Mask
The Scott Safety Promask PP (Positive Pressure) face mask for self contained breathing apparatus (SCBA) is available in 2 different sizes and will accommodate a wide range of facial shapes and sizes. (13190)

Modular Trolley with Hose Reel - 2 Cylinder, 2 Man (no hose)
The Scott Safety Modular range of Airline Trolley Systems provide a portable compressed air supply system for the users of airline breathing apparatus. (1051844)

Marine and Industrial Compliance Set Sigma 2 Type 2 MED App.
Suitable for marine and industrial use including short duration confined space entry. (SCBACOMP6T2)

Inline Whistle with CEN Couplings
When placed in the airline system between the breathing hose and the user this device provides a safe, clear warning should the airline pressure drop below 4 bar. (1023353)

Flite Cylinder 2L 200 Bar Steel Cylinder 10 min Escape
The Scott Safety Flite is an open circuit, positive pressure airline breathing apparatus generally comprising of a bandolier harness, positive pressure airline apparatus with automatic positive pressure demand valve, supply hose and coupling for airline supply hose. (2006648)

Flite Airline Breathing Apparatus
The Scott Safety Flite is a first breath activated positive pressure airline breathing apparatus with the option of hip mounted 10 and 15 minute compressed air cylinder supply for egress from the most hazardous environments. (1047792)

DFES 2 Disinfectant 1 Lt
A one step disinfectant for Personal Protective Equipment, such as Hard Hat, Face Shields, Goggles, Spectacles, Protective Head Gear, Hearing Protectors, Gas Masks and Suits and Self Contained Breathing Apparatus (SCBA). (FGF2)
DFES 1 Sanitiser Cleaner 4 Lt
A safe effective cleaner for Personal Protective Equipment, such as Hard Hats, Face Shields, Goggles, Spectacles, Protective Head Gear, Hearing Protectors, Gas Masks and Suits and Self Contained Breathing Apparatus (SCBA).
(FGF1)

Cylinder 9L 300 Bar Carbon Fibre T Valve
Scott Safety's Carbon Fibre Cylinders provide a lightweight solution for containing the air required by Scott Safety Breathing Apparatus.
(1127413T)

Cylinder 9L 300 Bar Carbon Fibre RAV (Right angle valve)
Scott Safety's Carbon Fibre Cylinders provide a lightweight solution for containing the air required by Scott Safety Breathing Apparatus.
(1127413RAV)

Cylinder 6.8L 300 Bar Carbon Fibre T Valve
Scott Safety's Carbon Fibre Cylinders provide a lightweight solution for containing the air required by Scott Safety Breathing Apparatus.
(1118245T)

Cylinder 6.8L 300 Bar carbon fibre RAV (Right angle valve)
Scott Safety's Carbon Fibre Cylinders provide a lightweight solution for containing the air required by Scott Safety Breathing Apparatus.
(1118245RAV)

AV3000HT Medium Faceseal

(4310.0000.XX)
Load Capacity Enhancer (LCE) and Stability Center turn the NT Hybrid into a reliable tool for lifting tasks. The oval shape of the NT Hybrid helps in distributing forces evenly, ensuring the bag stays flat throughout the lift. Its embedded technology enhances lifting capabilities by integrating features that improve load capacity and stability.

The P4 is a cutting-edge tool designed for rescue operations, featuring a powerful electric motor that drives a screw piston to generate output force. No hydraulic fluids, pumps, valves, or seals are required, making it maintenance-free and ideal for emergency situations.

The Airblast ventilators have been designed to assist firefighters, USAR teams, and other rescue workers with various applications, ensuring the safety and health of victims. The Positive Airblast ventilators are engineered to provide positive airflow, while the Negative Airblast models offer controlled exhaust, making them suitable for different rescue scenarios.

The NT2 Hybrid Incl. Valise offers a compact design, ideal for firefighters who need to carry essential tools and equipment. Its hybrid nature combines the benefits of both typical and negative airblast ventilators, ensuring flexibility in various rescue situations.

The V4X EDD Spreader (Short Control Handle) is a versatile tool that can be converted into a dedicated spreader just by changing attachments. This feature makes it an indispensable tool for firefighters and rescue teams who face challenging rescue scenarios.

Negative Airblast 18" Variable Speed
The Airblast ventilators have been designed and engineered to assist firefighters, USAR teams, and other rescue workers with the various rescue applications they encounter. (6060.0120)

Command Light Shadow SL422A-FS 2 X 220 W AC Spectra LED
The SL422A-FS is a part of Command Light's most compact line of light towers. Powered by 115 or 230V AC power, this tower has a reach of over 4 feet above its base (or over 6.5 ft with an optional 80” arm).
(5876.2220)
Command Light Knight KL415A-FS
Command Light's KL415A-FS is a mid-size LED light tower that provides reliable scene lighting to any situation. These towers are extremely stable, yet more compact than the CL Series. They lay flat with a smaller footprint at only 47\" for smaller to mid-size apparatus, or larger trucks with limited space.

Command Light Knight KL450A-LF
Command Light's KL450A-LF is a mid-size light tower that provides reliable scene lighting to any situation. These towers are extremely stable, yet more compact than the CL Series. They lay flat with a smaller footprint at only 47\" for smaller to mid-size apparatus, or larger trucks with limited space.

Command Light CL607A-HQ 6 X 750 Watt
Command Light's CL607A-HQ is a highly versatile quartz-halogen light tower that provides reliable scene lighting to any situation. These towers deploy in less than 15 seconds and give users precise control of direction, while giving departments the most dependable, best light possible.

Command Light CL602A-FS 6 X 22W AC Spectra LED
Command Light's CL602A-FS is a highly versatile LED light tower that provides reliable scene lighting to any situation. These towers deploy in less than 15 seconds and give users precise control of direction, while giving departments the most dependable, best light possible.

Lights

**Command Light Shadow SL422A-FS 2 X 220 W AC Spectra LED**

The SL422A-FS is a part of Command Light's most compact line of light towers. Powered by 115 or 230V AC power, this tower has a reach of over 4 feet above its base (or over 6.5 ft with an optional 80” arm).

(5876.2220)

**Command Light Knight KL415A-FS 6 X 220W AC Spectra LED**

Command Light's KL415A-FS is a mid-size LED light tower that provides reliable scene lighting to any situation. These towers are extremely stable, yet more compact than the CL Series. They lay flat with a smaller footprint at only 4" for smaller to mid size apparatus, or larger trucks with limited space.

(5876.0230)

**Command Light Knight KL 450A-LF 6 X 500 Watt**

Command Light's KL450A-LF is a mid-size light tower that provides reliable scene lighting to any situation. These towers are extremely stable, yet more compact than the CL Series. They lay flat with a smaller footprint at only 4" for smaller to mid size apparatus, or larger trucks with limited space.

(5876.0510)

**Command Light CL607A-HQ 6 X 750 Watt**

Command Light's CL607A-HQ is a highly versatile quartz-halogen light tower that provides reliable scene lighting to any situation. These towers deploy in less than 15 seconds and give users precise control of direction, while giving departments the most dependable, best light possible.

(5876.0750)

**Command Light CL602A-FS 6 X 22W AC Spectra LED**

Command Light's CL602A-FS is a highly versatile LED light tower that provides reliable scene lighting to any situation. These towers deploy in less than 15 seconds and give users precise control of direction, while giving departments the most dependable, best light possible.

Rescue Equipment

X2 EDD Spreader
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

Vehicle Charger 24V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is a 110/220V, or with the special converter to 12/24V.

V4 EDD Ram
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

Vehicle Charger 110V / 220V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is a 110/220V, or with the special converter to 12/24V.

P4X EDD Spreader (Short Control Handle)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

V4 EDD Ram
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

Vehicle Charger
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is a 110/220V, or with the special converter to 12/24V.

Rear 360Deg Carry Handle (Long Version Only)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

P4X EDD Spreader (Short Control Handle)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

P4W EDD Cutter (Short Control Handle)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

Vehicle Charger 110V / 220V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is a 110/220V, or with the special converter to 12/24V.

P4E EDD Incl. Spreader Arms & Cutter Blades
The P4 is one-of-a-kind and a "must have" for any rescue team. It can be converted from being a dedicated spreader to a cutter in just seconds using interchangeable tool attachments.

Mains Power Adapter
Mains Power Adapter allows you to work without batteries. Connected to 110 or 220V, the mains power adapter enables any EDD tool to operate continuously, without interruption.

G6W EDD Cutter
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT. For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

Vehicle Charger 110V / 220V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is a 110/220V, or with the special converter to 12/24V.

P4FX EDD Frontliner
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology direct from the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT. For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

G4W EDD Cutter

Through EDD Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtimes.

Battery Pack 10 EDD

G4C EDD Cutter

Through EDD Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtimes.

Battery Pack 1 EDD

FX6 FJ EDD Frontliner

The Frontliner FX-series combine high cutting, spreading and pulling performance in one truly multifunctional rescue tool.

Battery Charger EDD

Nominal output 50.2 VDC 2 A
Nominal input 100-240 VAC
Charge time battery pack 1 EDD 1 hour
Charge time battery backpack 10 EDD 9 hour
Dimensions (L x W x H) 257 x 135 x 105mm (+- 5mm)
Weight 1.1kg
Cable length (wall plug) 1.9m
Cable length (charge plug) 1.4m
Charger adapter KIT included

Battery Operated Equipment

X2 EDD Spreader
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(5720.1202.EE)

V4 EDD Ram
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4540.2041.EE)

V4 EDD Ram
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4540.2001.EE)

Rear 360Deg Carry Handle (Long Version Only)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4250.1065)

P4X EDD Spreader
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4770.0303.EE)

P4X EDD Spreader (Short Control Handle)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4770.0003.EE)

P4W EDD Cutter
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4172.0303.EE)

P4X EDD Spreader
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4770.0003.EE)

P4W EDD Cutter (Short Control Handle)
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4172.0003.EE)

P4FX EDD Frontliner
A new era starts for rescue extrication equipment; Electronic Direct Drive (EDD) Technology directs the motor to the output force. No need for hydraulic fluids, pump, valves or seals. Simply direct from a compact and powerful efficient motor that drives a screw piston.

(4270.0003.EE)

P4 EDD Incl. Spreader Arms & Cutter Blades
The P4 is one-of-a-kind and a "must have" for any rescue team. It can be converted from being a dedicated spreader to a cutter in just seconds using interchangeable tool attachments.

(4272.3003.EE)

G6W EDD Cutter
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT: For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

(5163.1202.EE)

G4W EDD Cutter
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT. For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

(5143.1202.EE)

G4C EDD Cutter
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT. For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

(5142.1202.EE)

G6C EDD Cutter
A NEW ERA STARTS FOR RESCUE EXTRICATION EQUIPMENT. For the first time ever, the need for hydraulics is completely eliminated in a complete line of extrication equipment. No need for a hydraulic pump, fluid, piston, valves or seals. Electronic Direct Drive (EDD) directly converts battery power – from a compact, powerful and efficient motor – to output force.

(5162.1202.EE)

FX6 FJ EDD Frontliner
The Frontliner FX-series combine high cutting, spreading and pulling performance in one truly multifunctional rescue tool.

(5265.1202.EE)

FX4 FJ EDD Frontliner
The Frontliner FX-series combine high cutting, spreading and pulling performance in one truly multifunctional rescue tool.

Battery Operated Equipment Accessories

Vehicle Charger 24V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is is 110/220V, or with the special converter to 12/24V.

Vehicle Charger 110V / 220V
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is is 110/220V, or with the special converter to 12/24V.

Vehicle Charger
The Vehicle Charger charges your batteries on board of any rescue vehicle, by simply connecting it to any in-vehicle power source - whether is is 110/220V, or with the special converter to 12/24V.

Mains Power Adapter
Mains Power Adapter allows you to work without batteries. Connected to 110 or 220V, the mains power adapter enables any EDD tool to operate continuously, without interruption.

Battery Pack 10 EDD
Through EED Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtimes.

Battery Pack 1 EDD
Through EED Technology, battery power is more efficient. Eliminating hydraulics means more overall efficiency and long battery runtimes.

Battery Charger EDD
Nominal output 50.2 VDC 2 A
Nominal input 100-240 VAC
Charge time battery pack 1 EDD 1 hour
Charge time battery backpack 10 EDD 9 hour
Dimensions (L x W x H) 257 x 135 x 105mm (+- 5mm)
Weight 1.1kg
Cable length (wall plug) 1.9m
Cable length (charge plug) 1.4m
Charger adapter assembly included

Ventilation Equipment

Water Mist System For Stream Shaper Guard
Water Mist System For Stream Shaper Guard is an accessory for Resqtec's Airlast Ventilation Series.

Positive Airblast 20” Variable Speed
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 20” Honda GX
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 20” Electric
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 20” ATEX
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 18” Variable Speed
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 18” Honda GX
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 18” Electric
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Positive Airblast 18” ATEX
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Negative Airblast 16” Variable Speed
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Negative Airblast 16” Honda
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Negative Airblast 16” Electric
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Negative Airblast 16” ATEX
The Airblast ventilators have been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.

Flexible Duct With Carrying Bag 7.5M Explosion Proof
Accessories for Resqtec's Compact Airblast Series, Flexible Duct With Carrying Bag 7.5M Explosion Proof

Flexible Duct With Carrying Bag 4.5M Explosion Proof
Accessories for Resqtec's Compact Airblast Series, Flexible Duct With Carrying Bag 4.5M Explosion Proof
Compact Airblast 8” Explosion Proof
The Compact Airblast has been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.
(6060.0001)

Compact Airblast 8”
The Compact Airblast has been designed and engineered to assist firefighters, USAR-teams and other rescue workers with the various rescue applications they encounter.
(6060.0002)

20” Flexible Duct 6M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 20” Flexible Duct 6M (inc. Strap).
(6140.0062)

20” Flexible Duct 3M (inc. Strap)
Accessories for Resqtec’s Compact Airblast Series, 20” Flexible Duct 3M (inc. Strap).
(6140.0061)

Rope Rescue

Ultra-Pro Edge Protector - 4 Edge Protector
Edge Protector Ultra Pro 2 CMC Ultra-Pro is lighter and easier to transport than edge rollers.
(CMC294044)

Ultra-Pro Edge Protector - 2 Edge Protector
Edge Protector Ultra Pro 2 CMC Ultra-Pro is lighter and easier to transport than edge rollers.
(CMC294042)

TURBOFOOT right
Hook these mini ascenders to your feet and climb lines with greater ease.
(VCAM 2258)

Turbo Chest Ascender
The Turbo Chest Ascender is a compact and lightweight ascender which includes new patented rollers for high efficiency climbing.
(VCAM 2256)

Traverse Titan Titanium Basket Stretcher Split Version Titanium
For the ultimate in strength to weight ratio, the Titan Titanium Basket Stretchers sets a new standard for rescue lifters.
(FWETTI-SP)

Traverse Titan Titanium Basket Stretcher One Piece Titanium
For the ultimate in strength to weight ratio, the Titan Titanium Basket Stretchers sets a new standard for rescue lifters.
(FWETTII)

Traverse Titan Basket Stretcher Split Version Stainless Steel
The Titan Series Basket Stretcher is specifically designed to perform in a technical rescue environment. Its superior design provides a user-friendly platform from which to work.
(FWETB-SP)

Traverse Titan Basket Stretcher One Piece Stainless Steel
The Titan Series Basket Stretcher is specifically designed to perform in a technical rescue environment. Its superior design provides a user-friendly platform from which to work.
(FWETBT)

Traverse Gazelle Basket Stretcher
A strong, durable and cost effective black powder coated, carbon steel basket stretcher that’s suitable for industrial rescue and retrieval.
(FWETBG)

Traverse 540 Rescue Belay (small)
The 540°™ Rescue Belay, Small has all the same features of the Large, but is engineered to work with 11mm to 11.6mm (7/16 in.) rope.
(TRAV16-0200)

Traverse 540 Rescue Belay (large)
The Traverse 540 Rescue Belay is developed specifically to meet the needs of rescue system belays.
(TRAV16-0100)

Steel Triplock Karabiner 50 kN
A compact, lightweight, hardened steel karabiner with a 50 kN rating and triple lock gate.
(VCT A595TBBZO)

Stainless Steel Triplock Karabiner SS Gate 35 kN
Large stainless steel triplock karabiner with large gate opening.
(VCT46500PO ASS)

Sparrow Self Locking Descender 200kg
The Sparrow 200R allows you to unblock the rope position without having to tie off. It allows for short ascents and the assembly of a reversible haul system. The floating cam design forces users to load the rope preventing accidental “reverse loading”.
(VCT 2D656)

Sling - Snake 50 x 1500 30 kN Red / Blue / Yellow / Black
Every Ferno Sling is made from high grade, abrasion resistant webbing and is available in a variety of colours and lengths.
(VSL S30kN 1500)

Sling - Round 25 x 1500 32 kN Red / Blue / Yellow / Black
Every Ferno Sling is made from high grade, abrasion resistant webbing and is available in a variety of colours and lengths.
(VSL R32kN 1500)

Safe Spring Hook Each
Coloured, plastic coated stainless steel extend from 430 mm to 1600 mm and prevents tools accidentally falling.
(EB-STL INDV)

Rope Protector - Wraparound
Serious heavy duty rope protection made from super strong webbing.
(VAIROPRTINDWRAP)

Rope Protector - Flat
Made from a heavy duty webbing with medium duty webbing for the closure flaps.
(VAIROPRTINDFLAT)
Roll N Lock Self Jamming Pulley
A compact, ultra-light self jamming pulley with three operational modes: pulley, progress capture pulley and ascender.
(VCT 2D625)

Ringers Rope Rescue Gloves
The Ringers Rope Rescue Glove is ideal for optimum grip and control in inclement weather.
(RINGERS-355)

Rescue Descender D5
The D5ITCH/Rescue Descender is suitable for industrial height safety, rope access, edge management, hoistings and search and rescue.
(VISC RP85A1)

Rescue Descender D4
The D4 Rescue Descender is ideal for rescue, belay, descending, rope access and industrial situations.
(VISC RP880)

RALF Rescue Kit 5 to 1
Packaged ready to rescue, no assembly required, the RALF Rescue Retrieval System allows you to quickly raise or lower a person.
(FWE-RRK)

RALF Rescue Kit 3 to 1
Packaged ready to rescue, no assembly required, the RALF Rescue Retrieval System allows you to quickly raise or lower a person.
(FWE-RRK 3:1)

Med Sled Vertical Lift Rescue Red
The Med Sled Rescue is an innovative, cost effective rescue device designed specifically for vertical or horizontal lift operations.
(MS-M36VLR)

Maillon Rapide Twist Standard Steel - 7mm
Fitted with a 90 degree twist, the Maillon Rapide Twist is ideal for smoother PPE connections, rope access as well as in mountaineering and climbing.
(VMR STTW07)

Maillon Rapide Large Opening Steel - 8mm
The wider mouth opening makes connecting easier.
(VMR LOSW08)

Maillon Rapide Standard Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STS10)

Maillon Rapide Standard S/Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STSS10)

Maillon Rapide Large Opening S/Steel - 10mm
The wider mouth opening makes connecting easier.
(VMR LOSS10)

Maillon Rapide Delta Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DS10)

Maillon Rapide Delta S/Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DSS10)

Maillon Rapide Delta Alloy - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DA10)

Maillon Rapide C Steel - 10mm
Commonly used when connecting sit and chest harnesses.
(VMR CS10)

KASK HP+ Mesh Full Visor
Arborist/Mesh visor designed by Protector to fit the KASK High Performance and HP Plus Helmets.
(VKA-FCMS)

KASK HP+ Half Visor
KASK have three options available for the half visor that attaches to their HP Plus Helmet.
(VKA WVI 2)
KASK HP+ Full Visor Clear
Full face protection in a clear polycarbonate face shield for the KASK HP Plus Helmet.
(VKA WVI 3.015)

Kask HP+ Ear Muffs Pair Class 5
Class 5 ear muffs for the Kask HP Plus Helmet, certified to AS/NZS 1270:2002.
(VKA RBZ2CA)

KASK High Performance Plus AS/NZ 1801 Certified
Certified to AS/NZS 1801 and CE EN14052. Specifically designed for emergency rescue and rope access technicians, arborists and specialists working at height.
(VKA WHE 20)

ISC Rope Grab with Pip Pin 11 - 13 mm
Available with fixed axle or in-field detachable pip pin axle to allow fitting to the rope at any point. Two sizes available to suit either 11 mm to 13 mm or 14 mm to 16 mm semi-static ropes.
(VISC RP209A)

ISC Prusik Pulley Small Single SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP066D1)

ISC Prusik Pulley Small Single Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP066A1)

ISC Prusik Pulley Small Double SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP061D1)

ISC Prusik Pulley Small Double Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP061A1)

ISC Prusik Pulley Medium Single SS Becket
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP065D1)

ISC Prusik Pulley Medium Single SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP063D1)

ISC Prusik Pulley Medium Single Alloy Becket
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP065A1)

ISC Prusik Pulley Medium Single Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.
(VISC RP063A1)

ISC Prusik Pulley Medium Double SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

HaulerBiner Rescue Kit 300cm
The HaulerBiner Rescue is a simple and compact mechanical advantage rescue kit with some very unique features.
(VISC HB300A)

HaulerBiner Rescue Kit 165cm
The HaulerBiner Rescue is a simple and compact mechanical advantage rescue kit with some very unique features.
(VISC HB165A)
HaulerBiner Rescue Kit 105cm
The HaulerBiner Rescue is a simple and compact mechanical advantage rescue kit with some very unique features.
(VISC HB105A)

Girth Hitch Sling 1200mm
The Girth Hitch Sling offers significantly in design and performance from other adjustable anchor straps, allowing it to handle a higher load before slipping.
(VSL G30kN 1200)

Ferno Vertical Rescue Stretcher
The Ferno Vertical Rescue Stretcher's roll-up, compact and lightweight design makes it ideal for high angle, confined space, horizontal or vertical rescue.
(VRES STRETCH)

Ferno Ultralite X Harness
The Ultralite X full body harness is designed and manufactured in Australia and contains world-leading safety features with superior comfort and easy vest style donning.
(VHI ULTRALITE X)

Ferno ROAR LITE Harness
The ROAR Lite is the ultimate technical harnesses for rope access and rescue specific requirements.
(VHI ROAR LITE)

Ferno 71S Basket Stretcher Split Version
The Ferno 71-S two-piece Basket Stretcher has the same features as the one-piece Ferno 71 Basket Stretcher but separates in half for compact storage or backpacking to a rescue site.
(FWE71S)

Ferno 71 Basket Stretcher One Piece
The Ferno 71 Basket Stretcher is constructed of a high density polyethylene shell supported by a permanently attached heavy-duty aluminium frame.
(FWE71)

Ferno 71 Basket Stretcher One Piece
The Ferno 71 Basket Stretcher is constructed of a high density polyethylene shell supported by a permanently attached heavy-duty aluminium frame.
(FWE71)

Ferno Hardpoint Ascender Full Body Harness
The Ferno Hardpoint full body harness provides all the comfort, benefits and industry leading features of the Ferno Centrepoint 2 harness, but with a front hard connection point in place of the web belay loop.
(VHI HP ASC)

Ferno Centrepoint 2 Ascender Full Body Harness
A favourite with Australian emergency services and rope access technicians, the Centrepoint II is a tried and proven workhorse that can be used in a multitude of applications.
(VHI CEN FB 2 A)

Ferno 71S Basket Stretcher Split Version
The Ferno 71-S two-piece Basket Stretcher has the same features as the one-piece Ferno 71 Basket Stretcher but separates in half for compact storage or backpacking to a rescue site.
(FWE71S)

Ferno 71 Basket Stretcher One Piece
The Ferno 71 Basket Stretcher is constructed of a high density polyethylene shell supported by a permanently attached heavy-duty aluminium frame.
(FWE71)

Ferno Hardpoint Ascender Full Body Harness
The Ferno Hardpoint full body harness provides all the comfort, benefits and industry leading features of the Ferno Centrepoint 2 harness, but with a front hard connection point in place of the web belay loop.

The Ferno 71-S two-piece Basket Stretcher has the same features as the one-piece Ferno 71 Basket Stretcher but separates in half for compact storage or backpacking to a rescue site.
(FWE71S)
CT Orbiter A Single Pulley
Innovative pulley with mobile light alloy side plates designed for tree climbing.
(VCT 2P665)

CT Glove Half Finger Large
Comfortable Leather Gloves.
(VCT 7X960AB)

CT Alloy Swivel Twister
The Twister is a lightweight, hot forged, alloy swivel which helps prevent rope twist.
(VCT 2D793)

CT Alloy Swivel Twirl
The Twirl is a lightweight, hot forged alloy swivel which helps prevent rope twist.
(VCT 2D795)

CMC Rescue MPD 11mm
The MPD is a multi-purpose device that performs all functions for main lines, safety/safety lines, tag lines and hoisting lines and be used to tension high and guiding lines.
(CMC3303010)

CMC Rescue CSR2 Pulley with Lock
The redesigned CSR2 (Confined Space Rescue) Pulley is stronger yet lighter and incorporates 7/16 in (11 mm) to 1/2 in (13 mm) life safety rope.
(CMC300343)

CMC Rescue CSR2 Pulley
The redesigned CSR2 (Confined Space Rescue) Pulley is stronger yet lighter and incorporates 7/16 in (11 mm) to 1/2 in (13 mm) life safety rope.
(CMC300342)

Anchor Plates (8 holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VCT L6370503)

Anchor Plates (4 Holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VCT L6370303)

Anchor Plates (15 holes)
Anchor Plates allow you to create and organise your anchor systems safely.
(VISC RP320A)

Alloy Triplock Karabiner 30 kN
Extra light, drop forged alloy karabiner with triple action gate opening.
(VCT L5300001)

Alloy Triplock Karabiner 30 kN
A large, alloy, triplock karabiner supplied with a captive bar.
(VCT2C4650CXSACT001)

Alloy Screw Gate Karabiner 30 kN
A multipurpose, lightweight karabiner with a large base and wide sizing.
(VCT 2C4550B)

Aider Five Step
The Vertical Etrier and Aider four and five step are ideal for recreational aid climbing, rope access and rescue.
(VAS AIDER 5)

8mm Arresta Prusik Cord Yellow 25m
Arresta Prusik Cord is supple for handling and knot holding but hard wearing for prolonged use.
(NAR-Q3962R25)

8mm Arresta Prusik Cord Red 50m
Arresta Prusik Cord is supple for handling and knot holding but hard wearing for prolonged use.
(NAR-Q3962Y25)

11mm Patron Static Rope (215 m)
White
Teufelberger’s Patron 11mm Static Rope is an exceptionally appealing choice for multiple applications because of its low weight, high breaking strength and low danger of cracking.
(VTB 7360931)

11mm KM-III Static Rope (196 m)
White
The Teufelberger KM-III is an exceptional static rope for rescue, life-safety and fixed rope applications, repelling, hoisting and caving.
(VTB 3300-14)

11mm Arresta Static 200m Blk/Org Fleck
The Arresta Kernmantle 11mm static rope will get the job done and won’t cost you a fortune.
(NAR-Q3936BO200)

Ascender/Descender/Backup

**TURBOFOOT right**
Hook these mini ascenders to your feet and climb lines with greater ease.

(VCAM 2258)

**Turbo Chest Ascender**
The Turbo Chest Ascender is a compact and lightweight ascender which includes new patented rollers for high efficiency climbing.

(VCAM 2256)

**Sparrow Self Locking Descender 200kg**
The Sparrow 200R allows you to unblock the rope position without having to tie off. It allows for short ascent and the assembly of a reversible haul system. The floating cam design forces users to load the rope preventing accidental "reverse loading".

(VCT 2D656)

**Roll N Lock Self Jamming Pulley**
A compact, ultra-light self jamming pulley with three operational modes: pulley, progress capture pulley and ascender.

(VCT 2D625)

**Rescue Descender D5**
The D5 Work/Rescue Descender is suitable for industrial height safety, rope access, edge management, arborists and search and rescue.

(VISC RP885A1)

**Rescue Descender D4**
The D4 Rescue Descender is ideal for rescue, belay, descending, rope access and industrial situations.

(VISC RP8880)

**ISC Rope Grab with Pip Pin 11 - 13 mm**
Available with fixed axle or in-field detachable pip pin axle to allow fitting to the rope at any point. Two sizes available to suit either 11 mm to 13 mm or 14 mm to 16 mm semi-static ropes.

(VISC RP209A)

### Belays & Pulleys

#### Traverse 540 Rescue Belay (small)
The Traverse 540 Rescue Belay, Small has all the same features of the Large, but is engineered to work with 11mm to 11.6mm (7/16 in.) rope.

(TRAV16-0200)

#### Traverse 540 Rescue Belay (large)
The Traverse 540 Rescue Belay is developed specifically to meet the needs of rescue system belays.

(TRAV16-0100)

#### ISC Prusik Pulley Small Single SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP060D1)

#### ISC Prusik Pulley Small Single Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP060A1)

#### ISC Prusik Pulley Small Double SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP061D1)

#### ISC Prusik Pulley Small Double Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP061A1)

#### ISC Prusik Pulley Medium Single SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP063D1)

#### ISC Prusik Pulley Medium Single Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP063A1)

#### ISC Prusik Pulley Medium Double SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP064D1)

#### ISC Prusik Pulley Medium Double Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP064A1)

#### ISC Prusik Pulley Large Single SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP065D1)

#### ISC Prusik Pulley Large Single Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP065A1)

#### ISC Prusik Pulley Large Double SS
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP067D1)

#### ISC Prusik Pulley Large Double Alloy
ISC Prusik Minding Pulleys are designed for heavy duty rescue, rigging and hauling systems.

(VISC RP067A1)

#### CT Orbiter T Twin Pulley with Becket
The Orbiter T is a light, alloy double pulley with oscillating side plates with twin sheaves mounted on heavy duty ball bearings.

(VCT 2P662)

#### CT Orbiter S Single Pulley
The Orbiter S Single Pulley is a large, light weight alloy pulley with oscillating side plates.

(VCT 2P660)

#### CT Orbiter M Single Pulley Small
The new Orbiter M Single Pulley Small is a robust and compact yet lightweight alloy pulley with oscillating side plates.

(VCT 2P664)

#### CT Orbiter L Triple Pulley
The Orbiter L Triple pulley with mobile side plates is very versatile and robust and has provision for two connectors through the side plates. Its triple sheaves are mounted on heavy duty ball bearings.

# Karabiners / Maillon / Hardware

## Steel Triplock Karabiner 50 kN
A compact, lightweight hardened steel karabiner with a 50 kN rating and triple lock gate.
(VCT A595TBBO)

## Steel Screw Gate Karabiner 50 kN
This high strength, hardened zinc plated steel karabiner has a useful wide opening screw gate entry.
(VCT A455TBZO)

## Stainless Steel Triplock Karabiner SS Gate 35 kN
Large stainless steel triplock karabiner with large gate opening.
(VCTH46500PO ASS)

## Safe Spring Hook Each
Coiled, plastic coated stainless wire extends from 430 mm to 1600 mm and prevents tools accidentally falling.
(EB-STL INDV)

## Maillon Rapide Twist Standard Steel - 7mm
Fitted with a 90 degree twist, the Maillon Rapide Twist is ideal for smoother PPE connections, rope access as well as in mountaineering and climbing.
(VMR STSTW07)

## Maillon Rapide Twist Large Opening Steel - 8mm
Fitted with a 90 degree twist, the Maillon Rapide Twist is ideal for smoother PPE connections, rope access as well as in mountaineering and climbing.
(VMR LOSTW08)

## Maillon Rapide Standard Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STS10)

## Maillon Rapide Standard S/Steel - 10mm
The Maillon Rapide Standard is extremely strong when loaded along the long axis.
(VMR STSS10)

## Maillon Rapide Delta Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DS10)

## Maillon Rapide Delta S/Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DSS10)

## Maillon Rapide Large Opening Steel - 10mm
The wider mouth opening makes connecting easier.
(VMR LOS10)

## Maillon Rapide Large Opening S/Steel - 10mm
The wider mouth opening makes connecting easier.
(VMR LOSS10)

## Maillon Rapide Delta Steel - 10mm
Ideal in situations where a three-way load is exerted.
(VMR DS10)

## Maillon Rapide C Steel - 10mm
Commonly used when connecting sit and chest harnesses.
(VMR CS10)

Slip On & Trailers

Quik Flush Box 24

“Quik Flush” is a low foaming emulsifying and wetting agent that can be used safely to rinse all internal (and external) chemical components of the Quik Spray unit to reduce the damaging effects of agricultural chemicals, particularly on the rubber components.

1L Quik Cover

Quik Cover can be added to the tank and used as a washdown and deodorising agent.

Mop Up, 500L Tank

The Mop-Up Unit is a lightweight and compact firefighting unit.

7-IN-1 400L Tank

7-IN-1 Quick Attack Multi-System Slip On-400L Tank

7-IN-1 300L Tank

7-IN-1 Quick Attack Multi-System Slip On-300L Tank

1kg Foam Blocks Box 5

Solid EF is a surfactant, and like traditional foams is a substance capable of lowering the surface tension of liquids, facilitating the wetting of solid surfaces, and permitting the penetration of liquids into the capillaries.

Ultra Light

Ultra Light G Wagon
With our intelligent modular 'Slip-On' firefighting system paired with hard-hitting Military pedigree Mercedes G-Wagon this vehicle will revolutionise your firefighting capability.
(302001)

Multi Purpose G Wagon
Our high-quality mobile workspaces are built to last. When paired with the hard-hitting Military pedigree Mercedes G-Wagon this vehicle will revolutionise your work capability.
(302020)

Mine Spec G Wagon
Our high-quality mobile workspaces are built to last. When paired with the hard-hitting Military pedigree Mercedes G-Wagon this vehicle will revolutionise your work capability.

Fire Detection

Wire Guard for Detectors (195 Dia. x 120 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W502)

Wire Guard for Detectors (130 Dia. x 105 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W504)

Wire Guard for Detectors (115 Dia. x 80 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W500)

Wire Guard for Detectors (130 Dia. x 105 High)

W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.

VSM4 VESDAnet Network Connection
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VESDAnet network connection software.
(VSW-346)

VSM4 VESDAnet Detector Connection
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VESDAnet detector connection per detector.
(VSW-356)

VSM4 Secondary Site Licence
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 Central Site Licence - Primary PC
(VSW-216)

VSM4 Primary Site Licence
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 Central Site Licence - Primary PC
(VSW-206)

VSM4 and PSM4 Connection Token (21-100) per token
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 and PSM4 Connection Token (21-100) per token
(VSW-427-002)

VSM4 and PSM4 Connection Token (1-20) per token
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 and PSM4 Connection Token (1-20) per token
(VSW-427-001)

VLI Secondary Foam Filter Spare Part
The VESDA VLI filtration system effectively reduces the level of pollution in the air sample before it enters the detection chamber.
(VSP-031)

VLI Secondary Filter Spare Part
VLI Secondary Filter Spare Part
(VSP-031)

VLI Intelligent Filter Spare Part
The VESDA VLI Intelligent Filter effectively reduces the level of pollution in the air sample before it enters the detection chamber.
(VSP-030)

VLI Chamber Assembly Spare Part
The VESDA VLI Chamber Assembly is a field-replaceable component of the VESDA VLI detector.
(VSP-033)

VLI Aspirator Spare Part
The VESDA VLI Aspirator is a field-replaceable component of the VESDA VLI detector.
(VSP-032)

VLF 3 Relay & 1 Input Multifunction Control Card
The VESDA LaserFOCUS Relay Multifunction Control Card is an interface card for the range of Xtralis VESDA VLF smoke detectors. It multihits the range of input and output communications a VLF detector can perform.
(VIC-030)

VIO800 VESDA Interface Module c/w Bracket (can use on 4100ESi)
The VIO800 is an arrangement of the MIO800 Addressable Multi-I/O Module supplied ready to be fitted on to a VESDA LaserPLUS™ or Laser SCANNER
(516.018.014)

Vigilant WIP Phone (RED)
The Vigilant Warden Intercom Point (WIP) Phone RED is designed specifically for use with sound and intercommunication systems for emergency purposes.
(FP0938)
VESDAnet Simplex High Level Interface, Sliding Window
The VESDA ModBus High Level Interface (HLI) links your VESDAnet with PC software monitoring tools, Building Management Systems (BMSs) or Fire Alarm Control Panels (FACPs), otherwise known as 'host', that support the ModBus protocol.
(VHX-0400)

VESDAnet PC Link High Level Interface, Sliding Window
The VESDA Sliding Window High Level Interface (HLI) links your VESDAnet with PC software monitoring and configuring tools such as Xtralis VSM and Xtralis VNC.
(VHX-0200)

VESDAnet PC Link High Level Interface, Open Protocol
The VESDA Open Protocol High Level Interface (HLI) links your VESDAnet with PC software-monitoring tools, Building Management Systems (BMSs) and Fire Alarm Control Panels (FACPs), otherwise known as 'host'.
(VHX-0310)

VESDAnet Interface (VN) Card
The VESDA Interface Card (VN Card) is a simple interface card for the range of VESDA VLF by Xtralis aspirating smoke detectors.
(VIC-010)

VESDA VLQ-100 Demo Kit (inc Pipes, PSU, Carry Case)
VESDA VLQ-100 Demo Kit (inc Pipes, PSU, Carry Case)
(VKT-100)

VESDA VLQ Surface Mount Kit
The Surface Mount Kit is for the VESDA VLQ detector.
(VSP-890)

VESDA VLQ Replacement Filter Pack 20
VESDA VLQ Replacement Filter Pack 20
(VSP-892-20)

VESDA VLQ Replacement Filter
VESDA VLQ Replacement Filter
(VSP-892)

VESDA VLQ Flush Mount Kit
The Flush Mount Kit is for the VESDA VLQ detector.
(VSP-891)

VESDA VLQ 2 Pipe Stubs and End Caps
VESDA VLQ 2 Pipe Stubs and End Caps
(VSP-893)

VESDA VLI with VESDAnet
VESDA VLI with VESDAnet
(VLI-885)

VESDA VLI with Relays and Ethernet Only
VESDA VLI with Relays and Ethernet Only
(VLI-880)

VESDA VLC-505-EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-505-EX)

VESDA VLC-500-EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-500-EX)

VESDA Test Transformer
Xtralis Test Transformer VTT-10000 (previously known as the Hot Wire Test – Power Supply Unit (PSU)) is a tool used to test very early warning aspirated smoke detection equipment.
(VTT-1000)

VESDA Power Supply in Cabinet
24VDC 2A to match VESDA LaserPLUS
This Series 1948 Power Supply is designed match the VESDA LaserPLUS and LaserSCANNER detectors in size and colour.
(FP0852)

VESDA LaserPlus Compact Relays Only
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-500)

VESDA LaserFOCUS VESDAnet Compatible For 500m²
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser based aspirated smoke detection technology.
(VLF-500-02)

VESDA LaserFOCUS Relays Only
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser based aspirated smoke detection technology.
(VLF-250-02)

VESDA LaserFOCUS Relay Expansion Card
The VESDA LaserFOCUS Relay Expansion Card is an interface card for the range of Xtralis VESDA VLF smoke detectors. A Relay Expansion Card expands the range of input and output communications a VLF can perform.
(VIC-020)
VESDA LaserCompact Relays Only - Marine Version

The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-50000-MRN)

VESDA LaserCompact MX Addressable

The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-800MX)

VESDA Laser Compact VESDAnet

The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-505)

VESDA Inline Filter c/w Filters

The VESDA In-Line Filter is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors.
(VSP-850-G)

VESDA Inline Filter 4 Pack Elements Only

The VESDA In-Line Filter (4 Pack) is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors.
(VSP-855-4)

VESDA Inline Filter 20 Pack Elements Only

The VESDA In-Line Filter (20 Pack) is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors.
(VSP-855-20)

VESDA ECO Single Gas Hydrogen (H2) 0-100% LEL

VESDA ECO Single Gas Hydrogen Detector

Xtralis has developed the industry’s first multi-hole aspirated gas detector.
(ECO-D-B-11)

VESDA E Range VEU Premium Aspirated Detector with 3.5" Display

The VEU series of aspirating smoke detectors are the premium detector of the VESDA range. An Ultra-wide sensitivity range; 15 times greater than VESDA VLP
(VEU-A10)

VESDA E Range VESDA VEP w 3.5" Display, Plastic Enclosure

The VESDA-E VEP series of smoke detectors bring the latest and most advanced detection technology to provide very early warning and the best nuisance alarm rejection to a wide range of applications
(VEP-A10-P)

Ventilax Smoke Emitter Pack of 5 (4 Minute Burn Time)

Ventilax Smoke Cartridge, 5.65g cartridges, dia 18x62mm, 17m3 smoke vol, 180-240s burn time
(X62)

Tyco 614TD Type D Heat Detector

(4098-9640EA)

Tyco 614TC Type C Heat Detector

(4098-9639EA)

Tyco 614TB Type B Heat Detector

(4098-9638EA)

Tyco 614TA Type A Heat Detector

(4098-9637EA)

Trunk Adaptor used for Capillary Tubes

This product is a Trunk Adaptor used for Capillary Tubes.
(E700-TA)

TrueStart2 test tool, comes with 24V power pack battery charger, test leads, instructions and carry bag

The Simplex TrueSTART II Test Tool is a portable battery-operated test instrument, designed to enable contractors or technicians to quickly verify that all IDNet wiring and peripheral devices are installed correctly and operating properly
(TSIT-AUK)
TrueAlarm IDNET Isolator Base
The 4098-9793 isolator base accepts Simplex TrueAlarm analog sensors and provides communications isolation to improve installation convenience and increase system integrity. (4098-9793EA)

TrueAlarm Base with Sounder
The 4089-9714EA Photoelectric smoke detector contains a state-of-the-art sensing chamber and analogue communication electronics. (4098-9794EA)

TrueAlarm Base with Remote LED O/P
TrueAlarm detector bases contain integral addressable electronics that constantly monitor the status of the detachable photoelectric, ionisation, or heat detectors. Each detector’s output is digitised and transmitted to the system CPU every four seconds. (4098-9789EA)

Transparent Hinged Cover Suits KAC Manual Call Points
Transparent Hinged Cover Suits KAC Manual Call Points (SU0615)

TPS 2 Core Cable
Our TPS cables are ideally suited for Fire Alarm, OWS and EWIS systems. The cables are double insulated and have an outer sheath which is easy to strip and terminate. (602000)

Thom S330 Smoke Detector Tester
SOL0300 removal dispenser for use with all detector ranges. Connects directly to ST/100/101 poles. (517.001.255)

Thom S200 Universal Detector Removal Tool - Requires X100/X101
SOL0200 Universal detector changer for use with various manufacturers detectors - not suitable for M600/900 series low profile. Connects directly to SOL0100/101 poles. (517.001.240)

Thorn S100 Telescopic Pole 1.26 - 4.5m Fibreglass
SOL0100 Telescopic pole 1.26m to 4.5m (517.001.230)

T54B Type E Probe Heat Detector
Constructed from stainless steel, the T54B is an extremely rugged heat detector that can be used to detect fires in the harshest of environments. (T4E60xx)

T210 Test Source for S200 Series Detectors (Need X704 & X100/X101)
T210 Adaptor for use with S200 Series Detectors
T210+ Adaptor for S200 Detectors (592.001.016) (592.001.014)

System Sensor 885WP-B Heat Fixed Weatherproof
The 885WP-B is a 2 wire fixed temperature Type B heat detector. The detector is designed to provide open area protection in areas subject to moisture. (885WP-B)

Strobe Light Multi-Candela Synchronised White Wall Mount
The 4906-910x Multi-Candela strobe is a high output xenon strobe capable of signalling evacuation using the ISO 8201 “T3” temporal pattern, as required by AS1670.4-2004 and AS1670.1-2004. (4906-9103)

Strobe Lamp - Red TK86HP24 (3.15 joules, 320mA, 90FPM, IP55)
Strobe Lamp - Red Ax35 (0.6 joules, 100mA, 130FPM, IP54)
Strobe Lamp - Red Ax35 (EA0302)

Strobe Lamp - Amber TK86HP24 (3.15 joules, 320mA, 90FPM, IP55)
Strobe Lamp - Amber Ax35 (EA0305)

Strobe Lamp - Amber Ax35 (EA0301)
Stainless Steel Detector Cover - Flush Mounted
The STI-8200-SS Series detector cages are available in flush mount or surface mount configuration. (STI-8200-SS)

Stipplex Smoke Match Pack 25 Burn Time 25 Seconds
Stipplex Smoke Matches, 25 1g matches, 0.7m³ smoke vol, 25s burn time (X65-25)
Speech Intelligibility Meter & Talkbox
The STI-CIS Analyser measures the speech intelligibility of a fire alarm evacuation signal. The TALKBox is used to send the STI-PA test tone into the fire alarm warning system. It interfaces with the system through its microphone input.
(STI-CIS)

Speaker AS7240.24
Full range 4" ceiling loudspeaker, which features five power taps at 100V line for 6W, 3W, 1.5W, 0.75W and 0.375W outputs. An optional surface mount box is available for solid ceiling or wall installation.
(FS-SP4-7240)

Spare Part VESDA LaserFOCUS (Equivalent to new)
The VESDA LaserFOCUS is a very early warning smoke detector designed to protect small, business-critical environments of less than 250 m².
(VLF-250-02ETN)

Spare Part VESDA LaserCOMPACT VESDAnet Version (Equivalent to new)
The VESDA LaserCOMPACT (VESDAnet Version) is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including a very early warning, for small areas.
(VLC-505ETN)

Spare Part VESDA LaserCOMPACT RO Version (Equivalent to new)
The VESDA LaserCOMPACT (RO Version) is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including a very early warning, for small areas.
(VLC-500ETN)

Spare Part VESDA Compact VESDAnet Version Head Termination Card
The VESDA Compact VESDAnet Version Head Termination Card is a field-replaceable component for the VESDA VLC detector.
(VSP-515)

Spare Part Scanner Chassis & Manifold Assembly (Equivalent to new)
The VESDA Remote Mounting Kit option is normally exercised where there is a need to monitor and/or stand alone detector, or one connected to VESDAnet, from a remote location.
(VSP-012)

Spare Glass - Pack 10, Tyco Logo
Spare glass Tyco logo (pkt 10) white text on black background
(SU0603)

Spare Glass - Pack 10, Simplex Logo
Spare glass Black pictogram on which black ground
(SU009)

Solo Test Smoke - Aerosol Can
Solo Test Smoke 250ml can
(517.001.279)
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.

**Sealed Lead Acid Battery 1 x 12volt x 40A/H**

These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.

**Sealed Lead Acid Battery 1 x 12volt x 40A/H**

This product is a Sampling Point Label RED per Sheet of 12.

**Sampling Point Label RED per sheet of 12**

This product is a Sampling Point Label RED per Sheet of 12.

**(E700-SPLR)**
Sampling Point Heat Activated
This product is a Heat Activated Sampling Point.
(E700-HASP)

Sampling Point Decal - 200 per roll
This product is a Sampling Point Decal - 200 per roll.
(E700-SPDCL)

SAM800 Sounder Driver Module
The Sounder Addressing Beacon SAB801 and Sounder Addressable Module, SAM800 are designed to control an MX loop powered sounder base or relay base for use with compatible MX CIE
(516.800.954)

SAB801 Sounder Address LED Beacon
The Sounder Addressing Beacon SAB801 and Sounder Addressable Module, SAM800 are designed to control an MX loop powered sounder base or relay base for use with compatible MX CIE
(516.800.955)

S100/S200 Bracket Assembly Stainless Steel for use with S100/S200 flame detectors
Stainless Steel bracket assembly for all S100/S200 Series detectors
(517.001.184)

Round Remote Indicator 75mm Dia - FIRE ALARM IN LIFT SHAFT
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E527)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOM
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E523)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOF
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E526)

Round Remote Indicator 75mm Dia - FIRE ALARM IN DUCT
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E525)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CUPBOARD
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E529)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CONCEALED SPACE
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E521)

Round Remote Indicator 75mm Dia - FIRE ALARM ABOVE
The E500 M2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E524)

Remote Box with VESDA LaserFOCUS, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-V00)

Remote Box with VESDA VLI Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-Q00)

Remote Box with VESDA VLI Display No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-T00)

Remote Box with Surround Only (No Termination Card)
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-000)

Remote Box with Scanner Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-J00)

Remote Box with Scanner Display, No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-J00)
Remote Box with Scanner Display, 12 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-800)

Remote Box with Programmer
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-100)

Remote Box with LaserCompact Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-J00)

Remote Box with Displays, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-200)

Remote Box with Display, No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-600)

Remote Box with Blank Plate, DRP, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-E00)

Remote Box with Blank Plate, 7 Relay Card, Driver
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-500)

Remote Box with Blank Plate, 12 Relay Card, Driver
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-900)

Red Surface Mount Strobe with Backbox c/w “FIRE” Lettering 25mm 24VDC
The 40020B is designed to be mounted on a flat external wall. It is weather resistant and made of fire resistant ABS. Screws, caps and a back box is supplied.
(40020B)

QRM850 Quad Relay Module
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems*.
(555.800.073)

QMO850 Quad Monitored Output
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems*.
(555.800.070)

QIO850 Quad I/O Module
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems*.
(555.800.071)

PSU 24VDC 12A (PSU2412F)
Mounted in 8U x 180 Battery Box
FP0803 comprises an ENEC343 (PSU2412F 2U rack mounted) power supply for AS 1603.4 & AS 4428 MA44280400 mounted within the FP0521 8U 19" rack battery box.
(FP0803)

Power Supply 24VDC 2A in Cabinet to Match VESDA LaserPlus
The VESDA Power Supply (24VDC 2A) in Cabinet is uniquely designed to complement the style and appearance of BESDA LaserPLUS aspirating smoke detectors (ASD).
(FP0852)

Power Supply 1948 Series 24VDC 2A
Series 1948 Power Supplies are designed specifically for use in fire alarm systems. They provide a compact, self-contained 24 volt dc mains power supply.
(FP0766)

Pipe Junction Fitting
This product is a Pipe Junction Fitting.
(E700-PJ)

Pipe Clip Single Point Fix
This product is a Pipe Clip Single Point Fix.
(E700-PC)

Photo / Heat Multi Sensor - TrueAlarm
TrueAlarm multi-sensor 4098-9754EA combines the TrueAlarm photoelectric smoke sensor with a fast-acting and accurate TrueAlarm thermal sensor to provide both features in a single sensor/base assembly.
(4098-9754EA)

OSID Wire Guard
Open-area Smoke Imaging Detection Wire Guard
A steel cage to protect Open-area Smoke Imaging Detection Imagers and Emitters from vandalism and accidental damage.
(OSID-WG)
OSID Install Kit - Laser Tool, Test Filter, PC Cable, Cleaning Cloth, Manual
Open-area Smoke Imaging Detection Installation Kit includes Laser Alignment Tool, Test Filter, PC Cable, Reflectors, and Manual
(OSID-INST)

OSID Imager Environmental
Image Environmental Housing
Custom designed IP 66, NEMA 4-4X protective and environmental housings protect OSID Imagers from dust and water ingress in industrial environments.
(OSID-EHI)

OSID Emitter Environmental
Emitter Environmental Housing
Custom designed IP 66, NEMA 4-4X protective and environmental housings protect OSID Emitters from dust and water ingress in industrial environments.
(OSID-EHE)

OSID Demo Kit - 2 x OSE-SPW, 1 x OSI-90, 1 x OSID-INST, in Carry Case with Mounting Plates
Open-area Smoke Imaging Detection Demo Kit consists of 2 X OSE-SP-01, 1 X OSI-90, 1 X OSID-INST and Mounting Plates, fitted in a rugged carry case.
(VKT-301)

OSID Anti Condensation Film for Emitter Pack 10
Anti-condensation film for OSID Emitters
An easy applicable film that provides a long time resistance to condensation on the acrylic Emitter lens.
(OSE-ACF)

Optical Sensor - TrueAlarm
The 4098-9714EA Photoelectric smoke detector contains a state-of-the-art sensing chamber and analogue communication electronics
(4098-9714EA)

NDU AS4428 Network Display, 4U 19" Rack Module
The Network Display Unit (NDU) is a fire alarm repeater panel compatible with the Panel-Link Network and the associated range of networked fire alarm systems (eg. MX4428, F3200). It provides alphanumeric display of alarms on a 2 line by 40 character LCD and beeper. The NDU is able to display alarms and status, and control all fire alarm panels connected to the network.
(FP0794)

MX4428 PSU,240VAC 24V 2.5A Mains Socket Fitted (replaces ME0476)
The 5A ME0476 Power Supply is a direct replacement for older 2.5A FP0874/FP0825 supplies
(ME0476)

MX4428 ADR-M 4mA Detector Current 1901-116
The FP0755 version of ADR supports the 15V MCP, the 614 series of detectors and all the other detectors from earlier versions of ADR, along with some new programmable circuit types.
(FP0755)

MX1 Single Loop 8U Panel 3U Blank
(Fit brigade module separately)
The simple and cost effective solution for small to medium installations
The VIGILANT MX1 is an innovative, networkable, multi-loop addressable fire indicator panel incorporating the latest technology and complying with the ISO-based AS 4428.3-2004 and including an integrated Fire Brigade Panel to AS 4428-3.2004.
(FP0948)

MX1 Loop Card Kit
The MX Digital Loop Card provides MX loop communications for the Simplex 4100ESi fire alarm panel via a single electrically isolated MX Digital loop. It supports up to 250 MX devices - detectors and modules - and provides up to 500mA of loop power.
(FP0950)

MX Sounder Module
The SNM800 Sounder Notification Module can be used to switch an external power source to sounders, extinguishing devices or other auxiliary equipment
(SNM800)

MX Programmable Relay Base
The 814RB Addressable Relay Base provides two sets of changeover solid-state relay contacts capable of switching 1A (resistive) @250Vac.
(814RB)

MX Module Back Box
MX Module Back Box
(517.035.010)
MX Mk2 Loop Powered Sounder Base
The 802SB/901SB Addressable Sounder Bases provide a sounder function on MX addressable systems. Designed for indoor use, they require an associated detector in order to operate, as each base is controlled by its detector.

MX Loop Filter Board
The MXP Loop Filter board is available for fitting to an MXP in order to further improve common-mode interference suppression that may occur as a result of the MXP detector loop not being adequately separated from power wiring, lift motors etc.

MX Addressable Indoor Call Point (no back box)
The CP820 Indoor Addressable Manual Call Point has a plastic coated frangible element to ensure safe and reliable operation, producing no dangerous glass shards. It is operated by simply pressing on the centre of the frangible element until it snaps.

MR601TEX High Performance Optical Intrinsically Safe
The MR601TEX has been developed to overcome the slow response of the optical detectors to hot burning fires, by increasing the sensitivity of the optical detector when it is associated with a rapid change in temperature.

Mini Input Module
The MIM800 Mini Input Module monitors a voltage-free contact and transmits its state to the c.i.e. It can be programmed to monitor either Normally Open (default) or Normally Closed contacts.

MCP830 MX IP67 Addressable MCP with Isolator No Backbox
(MCP830)

MCP820 MX Addressable MCP with Isolator No Backbox
(MCP820)
Magnetic Door Holder Release Switch

The EA0405 Electromagnetic Door Holder Release is designed to allow fire and smoke doors to be opened manually. A standard switch plate mounting is used. A momentary action switch de-energises the door holder allowing the door to open.

(MA0405)

Magnetic Door Holder Floor Mounted 40kg

The EA0409 Floor Mount Door Holder comprises of a Box and Door Holder that will retain a load of 25kg. The Box provides a convenient attractive cover protecting the door holder from accidental damage.

(EA0409)

Magnetic Door Holder 300mm Straight

The EA0408 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated.

(EA0408)

Magnetic Door Holder 150mm Straight

The EA0407 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated.

(EA0407)

M520 Ancillary Cover for MX Devices

MX Module Cover incl PCB cover and screws

(517.035.007)

LPSY865R - Addressable Loop Powered Sounder

MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

(516.800.962)

LPSY800W - Addressable Loop Powered Sounder

MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

(516.800.961)

LPSY800R - Addressable Loop Powered Sounder

MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

(516.800.960)

LPAV865 Addressable Sounder Beacon Outdoor IP65

MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

(516.800.965)

Long Radius Bend (150mm)

This product is a Long Radius Bend (150mm) (E700-LB)

Local Gas Control Station Auto c/w Isolate Switch

Local Gas Control Stations (LGCS) are used in gaseous fire extinguishing systems to provide local area manual control of a release. The automatic version includes a Gas Inhibit switch, buzzer and LED, whereas the manual version (FP0572) does not.

(FP0570)

LIM800 Line Isolator Module

The LIM800 Line Isolator Module is designed to be used on the MX addressable controller loop circuits.

(545.800.004)

LaserPLUS Handheld Programmer c/w Cable

The LaserPLUS Handheld Programmer including a lead for temporary connection of a programmer to a network via a VESDA/net socket.

(VHH-100)

LaserPlus c/w Fire & OK LEDs, 2 Blanks

The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.

(VLP-400)

LaserPlus c/w Blank, Blank, Programmer

The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.

(VLP-001)
LaserPlus c/w Blank, Blank, 1 Display
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.

(LVP-002)

LaserPlus c/w Blank, 2 Display
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.

(LVP-022)

LaserPlus c/w Blank, 1 Display, Programmer
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.

(LVP-012)

LaserCOMPACT Replacement Aspirator
The VESDA VLC Aspirator is a field-replaceable component of the VESDA LaserCOMPACT detector.

(VSP-501)

Laser Alignment Tool
A unique alignment tool for fast alignment. Aligns and locks the eyeball, and is able to activate Emitters with locked.

(OSP-002)

KAC RED Manual Call Point (back box only)
The SU0631 Manual Call Point is supplied with one normally open and one normally closed contact.

(SU0631)

KAC RED Manual Call Point

KAC Manual Call Point Plastic Insert Element
Flexible plastic element

(S515.001.127)

KAC Manual Call Point (White) with Surface Box
The KAC Manual Call Point with Surface Box (White) is surface mounting, with a plastic coated glass element to ensure reliable, safe operation.

(SU0608)

KAC Manual Call Point - IP67 Weatherproof/Special Environment Unbranded
This surface mounting Manual Call Point has an Ingress Protection rating of IP67, making it suitable for wet area applications. The callpoint is operated by simply pressing on the centre of the fragile element until it snaps, which releases a microswitch, signaling an alarm at the CIE.

(SU0634)

ISO 8201 Strobe Driver Board PCB Assy 1922-77
The ISO 8201 Strobe Driver generates an ISO 8201 compliant “T3” pattern for the Multi-Candela strobe 4906-9104.

(PA1043)

Imager - 80° Coverage, 24V DC
Open-area Smoke Imaging Detection (OSID) Imager 80° FOV

(OSI-90)

Imager - 7° Coverage, 24V DC
Open-area Smoke Imaging Detection (OSID) Imager 7° FOV

(OSI-10)

Imager - 38° Open-area Smoke Imaging Detection (OSID) Imager 38° FOV

(OSI-45)

IDNet Relay Output IAM (RIAM)
Uses RACO232 & Lid
The 4090-9002 Relay IAM allows the CIE to control a remotely located Form “C” Relay contact using DINM addressable communications for both data and module power.

(4090-9002)

IDNet Relay IAM with Unsupervised Input (Uses RACO232 & Lid)
The 4090-9119 allows a 4100ES DINM communication channel to monitor an unsupervised input contact with one point and control an output relay with the other point, yet occupy a single address.

(4090-9119)

IDNet Relay IAM with T-Sense Input (Uses RACO232 & Lid)
The 4090-9118 Relay IAM with T-Sense allows a 4100ES DINM communication channel to monitor two input contact closures with one point and control an output relay with the other point, yet occupy a single loop-address.

(4090-9118)

IDNet Monitor ZAM (Use RACO232 & Lid)
The 4090-9101 Zone Adaptor Module Monitor ZAM allows a 2-wire circuit of collective smoke or heat detectors to be interfaced to the IDNet loop.

(4090-9101)
IDnet Encapsulated IAM (Uses RACO232 & Lid)
This IDnet addressable device is an encapsulated version of 4090-9051. It has both power and communications supplied by a two-wire IDnet circuit.
(4090-9051)

IDnet Addressable Signal IAM (Uses RACO232 & Lid)
This IDnet addressable device provides a supervised, addressable interface to conventional warning devices such as sounders or strobes.
(4090-9007)

IDnet 6 Point I/O Module (4 I/Ps + 2 relay O/Ps) (Uses RACO232 & Lid)
The 4090-9120 allows 4100ES IDnet communication channel to monitor four T-sense input circuits and control two output relays from a single module requiring a single address.
(4090-9120)

Housing Without Relay (includes photo sensor)
The TrueAlarm sampling unit detects the presence of smoke in air conditioning or ventilating ducts. Sampling tubes are installed into the duct and air is directed to a 4098-9714EA smoke sensor mounted in the housing.
(4098-9755EA)

FD12 LaserPlus Scanner c/w 3 Blanks, 1 Display, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.
(VLS-200)

FD12 LaserPlus Scanner c/w 2 Blanks, 1 Display, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.
(VLS-304)

FD7 LaserPlus Scanner c/w 2 Blanks, 1 Programmer, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.
(VLS-204)

FD7 LaserPlus Scanner c/w 1 Blank, 1 Display, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.
(VLS-214)

F4000 Responder Relay Module (RRM) PCS8 Assembly 1901-15
The Responder Relay Module (RRM) is an optional add-on board to an ADR. When added the responder the combination is referred to as an Advanced Relay Responder (ARR). The RRM provides four relay outputs, which may be independently configured as supervised or not.
(PA0453)
F4000 Multi-Protocol Resp (MPR) 1901-141
MPR Responder in Box (PA0713 PCB only)
(FP0575)

F4000 Multi Prot Resp (MPR) PCB Assy 1901-141
Multi Protocol Responder (MPR)
(PA0713)

F4000 Loop Booster Unit 1901-36
The M4400/F4000 Loop Booster overcomes problems such as Responder loop voltage drop and excessive loop length that would otherwise necessitate a restriction in responders or the use of thicker loop cable.
(FP0487)

F4000 ADR-M 4mA Detector Current 1901-116
The F4000 version of ADR supports the 15V MCP, the 614 series of detectors and all the other detectors from earlier versions of ADR, along with some new programmable circuit types.
(FP0755)

F3200 FIP 8 Zones Fitted Small Cabinet 3A MAF/PSU
The 8 zone F3200 will suit small installations requiring a system up to 8 detection circuits.
(FP0784)

F3200 FIP 8 Zone Fitted 64 Max c/w Cardframe 3A PSU
The F3200 is a self-contained, modular, microprocessor based FIP which performs the functions of the CIE as specified by AS 4428.
(FP0781)

F3200 FIP 8 Zone Fitted 24 Max No Cardframe 6A PSU
The F3200 is a self-contained, modular, microprocessor based FIP which performs the functions of the CIE as specified by AS 4428.
(FP0782)

F3200 Cardframe Upgrade Kit
A KT0072 Cardframe upgrade kit can be fitted to a 15U F3200 to allow it to take more than three 8 way modules
(KT0072)

F3200 AS4428 FIP STD CAB 6AMP 1U Gas Control Pre-Programmed
The F3200 Single Zone (single risk) Gas Control Panel is designed to meet the CIE requirements of AS 4214-2002, “Gaseous Fire Extinguishing Systems”.
(FP0877)

F3200 AS4428 FIP 8U CAB 3AMP 1U Gas Control Pre-Programmed
The F3200 Single Zone (single risk) Gas Control Panel is designed to meet the CIE requirements of AS 4214-2002, “Gaseous Fire Extinguishing Systems”.
(FP0876)

F3200 8 Zone Input Expansion Kit
F3200 8 Zone Input Expansion. This module features 8 optoisolated digital inputs.
(FP0553)

F3200 8 Relay Expansion Kit
This F3200 relay Board designed for industrial applications requiring isolation between the computer and the external signals it is monitoring and controlling. This module features 8 optoisolated digital inputs and 8 relay outputs.
(FP0554)

End Cap (Not drilled)
This product is a End Cap (Not Drilled).
(E700-EC)

Emitter - Standard Power Wired at 24V DC
Open-area Smoke Imaging Detection Wire-Powered 24VDC Emitter
(OSE-SPW)

Emitter - Standard Power Battery Version
Open-area Smoke Imaging Detection Battery Powered 24VDC Emitter
(OSE-SP)

Emitter - High
Open-area Smoke Imaging Detection Wire High Powered 24VDC Emitter. Allows to double the detection ranges of the Imager 80° (350.40).
(OSP-HPW)

Dual Strobe(1Red/1Amber) c/w Surface Mounting Base 24VDC
The Dual Strobe (Red/Amber) c/w Surface Mounting Base 24VDC unit is for applications where a two stage alarm system or two distinct visible signals are required.
(8A0313)

Dual Detector Module DDM800 (can use on 4100ESi)
The DDM800 may be used to connect two circuits of conventional 24V detectors and interface them with an MX addressable fire alarm system.
(577.800.006)
Display Extender Kit Additional to FZ3031
Display Extender Kit includes PA0454 16Z display PCB, LM0046 standoffs, power leads, diffuser, zone name label master.

Detector Input Module
The DIM800 Detector input Module interfaces two collective detector circuits onto the MX addressable loop. Each circuit can support 35mA of detector quiescent current and requires a 4.7 Ohm End Of Line resistor.

D800 Ancillary Housing - IP65 Enclosure for MX Modules
The D800 Ancillary Housing provides an IP65 rated enclosure for all MX modules. It incorporates a window to view the module LED.

D51 Duct Housing with Base to Suit MX Detectors
The D51MX consists of a D51 duct sampling housing fitted with a 58 base wired to suit an MX analogue addressable 814P or 814PH photocell smoke detector.

CTA Complete Kit - Back Box, Bezel and Clamp
The Ceiling Tile Adaptor (CTA) is used to prepare a ceiling tile to be able to accept a complete base and detector assembly. It comprises a Bezel (1), Clamp (2) and Back Box (3).

Contact Input Module
The CIM800 Addressable Contact Input Module monitors and supervises two circuits of voltage-free contacts such as outputs from extinguishing systems, ventilation controls, fire door controls, sprinkler flow switches, non-indicating hard contact detectors, etc.

Carbon Monoxide(CO) Test Gas Can
CO Detector Test Gas, 120g can

Capillary Tube 5.2mm id 8mm od per metre
This product is a Capillary Tube 5.2mm ID 8mm OD per metre.

Capillary Sampling Connector for Capillary Tubes
This product is a Capillary Sampling Connector for Capillary Tubes.

Brandax VS Smoke Emitter Pack of 5 (3-4 Minute Burn Time)
Brandax VS Smoke Cartridge, 5 60g cartridges, dia 32x62mm, 55m3 smoke vol, 180-240s burn time

Blank Plate non-EMC with Fire 1 & OK LEDs
The VESDA Blank Plate non-EMC Protecting Processor Card is a replaceable component for VESDA LaserPLUS detectors.

Bell 24VDC Red 200mm dia.
Fire Bell red in colour 24VDC 200MM

Back Box for BELL01
Surface mounting of bell box designed for use with the 150mm and 200mm Bell.

AVI MK2 Kit Red Double Sided Expansion, not for IP65 AVI
Adds 2nd cover and base with 2 LED boards for ceiling mounted double sided 2 line red signs

AVI MK2 Face Plate "Warning - Fire Door Closing"
Faceplate "Warning - Fire Door Closing" 3-line Red UV stable

AVI MK2 Face Plate "Fire Alarm - Evacuate Area"
Faceplate "Fire Alarm - Evacuate Area" 2-line Red UV stable

AVI MK2 Face Plate "Fire Alarm - Do Not Enter"
Faceplate "Fire Alarm - Do Not Enter" 2-line Red UV stable

AVI MK2 Face Plate "Extinguishing System Inoperative"
Faceplate "Extinguishing System Inoperative" 3-line Yellow UV stable
**AVI MK2 Face Plate "Do Not Enter - Inergen Gas Discharged"**

Faceplate "Do Not Enter - INERGEN Gas Discharged"
3-line Red UV stable
(FA2704)

**AVI MK2 Face Plate "Do Not Enter - FM200 Gas Discharged"**

Faceplate "Do Not Enter - FM200 Gas Discharged"
3-line Red UV stable
(FA2703)

**AVI MK2 Face Plate "Do Not Enter - CO2 Gas Discharged"**

Faceplate "Do Not Enter - CO2 Gas Discharged"
3-line Red UV stable
(FA2702)

**AVI MK2 2 to 3 Line Conversion Kit for FP0853**

Adds a 3rd LED board to make 3-line red sign
(KT0292)

**AVI MK2 2 Line Red LED Display**

The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI's internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP0853)

**AVI MK2 3 Line Yellow LED Display**

The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI’s internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP0854)

**AVI MK2 2 Line Red LED Display**

The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI’s internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP1038)

**AVI MK2 3 Line Yellow LED Display**

The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI’s internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP1039)

**ASE Door Kit 4100ES-S1 ASE Door Kit**

(FP0935)

**AS4428 Single Loop 15U c/w TGEN AUI / PPU**

The VIGILANT AS4428 Single Loop panel is a competitively-priced fire detection and alarm system that targets small to medium sized applications.
(FP0872)

**AS4428 Remote Display Unit Wall Mount**

The AS4428 1 Remote LCD Display Unit (RMU) is a fire alarm repeater panel compatible with the MX4428 and F2200 range of fire alarm systems. It provides an alphanumeric display of alarms on a 2 line by 40 character LCD and keypad.
(FP0787)

**AS4428 Remote Display Unit Flush Mount**

The AS4428 1 Remote LCD Display Unit (RMU) is a fire alarm repeater panel compatible with the MX4428 and F2200 range of fire alarm systems. It provides an alphanumeric display of alarms on a 2 line by 40 character LCD and keypad.
(FP0788)

**Alternative to VESDA Pipe 4 metre x 750 lengths**

This product is an alternative to VESDA Pipe 4 metre x 750 lengths.
(E700-crate)

**Alternative to VESDA Pipe 4 metre x 10 lengths**

This product is an alternative to VESDA Pipe 4 metre x 10 lengths.
(E700-P)
ADR-M 2.5mA 3K3 EOL PCB 1901-200
The PA0844 version of ADR-M is used as a retrofit where existing detector circuits use a resistor ELD in the range of 1k5 to 3k3 ohms (restrictions apply), and intrinsically safe applications – since the intrinsically safe Active ELDs (EOL002ZEx) are no longer available for the standard ADR-M and the replacement units (EOL002B) are not intrinsically safe approved.

Addressable MCP Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable Loop Powered Sounder
MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Addressable ADR-P Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Addressable ADR-M Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Addressable ADR-M Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Addressable ADR-M Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Addressable ADR-M Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4500-5116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

901SB Sounder Base (Externally Powered)
The 901SB Addressable Sounder Bases provide a sounder function on MX addressable systems. Designed for indoor use, they require an associated detector in order to operate, as each base is controlled by its detector.

9 Pin M/F Lead for VESDA HLI VHX-0200
The VESDA 9-Pin Serial Lead is a cable for direct programming of the VESDA LaserFOCUS and VESDA LaserCOMPACT detectors.

8U Battery Box 550 x 440 x 211mm
8U Battery Box - Empty

850PH MX Addr Photo Heat Detector c/w Isolator
With its ability to detect a wide range of fires from flaming to embers/smouldering types, the 850PH combined smoke and heat multi-sensor detector is the preferred choice for a range of applications including industrial, retail and office environments.

850P MX Addr Photo Detector c/w Isolator
The 850P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire alarm panel, suits most fire detection applications. The 850P incorporates a unique ‘mousehole’ design optical chamber with superior signal to noise ratio providing high resilience to dust and dirt which means reduced service costs.

850H MX Addr Heat Detector c/w Isolator
The 850H is a flexible cost-effective addressable heat detector with most of the features of MX VIRTUAL and M Series detectors. The 850H reports the temperature to the MX fire alarm panel which allows various detection modes.

850EMT Engineer Manager Tool (complete Kit)
The 850EMT is used to program the address into MX addressable devices. When used with VIGILANT MX systems, the 850EMT can also remotely interrogate, address and test 850 Series detectors via a two-way infrared link.
814PH MX Photo & Heat Multi Detector c/w coating Thermistor (UK)
The 814PH is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique (516.800.510)

814P MX Photo Optical Smoke Detector
The 814P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique (516.800.517)

814I Ionisation Smoke Detector
Tyco 814I detectors are offered for old specifications which still call for ionisation smoke detectors. The 814CH and 814PH detectors offer improved performance and lower false alarms for most smoke detection applications. (516.800.512)

814CH MX Carbon Monoxide/Heat Detector c/w coating Thermistor (UK)
The 814CH is a state-of-the-art combined CO and heat detector that allows a full set of detection modes to be implemented in the MX fire alarm panels to suit most fire detection applications. The 814CH is particularly well suited to areas and applications where smoke detector positioning is difficult or where smoke detectors are prone to false alarm. (516.800.511)

800RT MX Detector Removal Tool
800RT M600/M800 Detector removal tool. Requires Adaptor B and SOLO 100 pole (516.800.917)

50W 8U T-GEN Building OWS 1986-2 BOWS
The VIGILANT Building Occupant Warning System (BOWS) is a self-contained A/S 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Zone-based non-emergency paging options, IP remote audio connectivity and multiple audio connectivity make the VIGILANT BOWS a versatile unit ideally suited to a variety of building occupant warning applications. (FP1021)

5B 5" Universal Mounting Base
The 5B Universal Base is compatible with both the 614 collective series and the MX analogue addressable series of detectors and functional bases. (517.050.017)

5B 5" Universal Isolator Mounting Base
(517.050.018)

4B-I Isolator Base
The 4B-I isolator base serves as both a base for an 814 Series MX detector and a protection device against loop short circuits, monitoring the voltage on the MX addressable loop. When a short circuit is detected, the 4B-I isolates the affected section whilst allowing the rest of the addressable loop to function normally. (517.050.043)

4B-EM 4" Euro Mount Back Box
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 614 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations. (517.050.052)

4B-DHM 4" Deck-head Mount
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 614 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations. (517.050.051)

4B-C Continuity Base
The 4B-C Continuity Base is used for most installations involving 850 Series detectors, as it allows the detector’s in-built short circuit isolation function to be in-circuit when the detector is fitted and ensures continuity is maintained when the detector is removed. (517.050.042)

4B Detector Base
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 614 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations. (517.050.041)

601FEX Conventional Flame Detector Intrinsically Safe
The 601FEX point type flame detectors are part of the 600 series of non-addressable detectors. The 601FEX is a full featured flame detector for indoor use. (516.600.066)

200mm Round Grill PVC to Suit EA0007
The 200mm Round Grill PVC is applicable to the 200mm Cone Loudspeaker including a Cap ATC 5010-6 Speaker (EA0101)
The 200mm Cone Loudspeaker features a tapped line transformer with cover.

( EA0007 )

19" Rack c/w 4 Blanks
To complement the VESDA range of detectors, displays and programmers in a 19 inch rack enclosure is available.

(VSR-0000)

15W Plastic Horn Speaker - IP55 Rated - Large Cone
The 15W Plastic Horn Speaker - IP55 Rated - Large Cone is designed primarily for distributed paging systems.

(EA0016)

10W Plastic Horn Speaker - IP66 Rated - Small inc. Capacitor
Although the 10W Plastic Horn Speaker - IP66 Rated - Small inc. Capacitor is suitable for general paging applications, it has been primarily designed with sound systems for emergency purposes (evacuation systems) in mind.

(EA0013)

100W 8U T-GEN OWS 1986-3 BOWS
The VIGILANT Building Occupant Warning System (BOWS) is a self-contained AS 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitalised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Zone-based non-emergency paging options, IP remote audio connectivity and multiple audio connectivity make the VIGILANT BOWS a versatile unit ideally suited to a variety of building occupant warning applications.

(FP1022)

100mm Round Grill PVC to Suit EA0006
The 100mm Round Grill PVC is applicable to the 100mm Cone Loudspeaker including a Cap ATC 5010-3 Speaker

(EA0102)

100mm Cone Loudspeaker inc. Cap ATC 5010-3
The 100mm Cone Loudspeaker features a tapped line transformer with cover.

(EA0006)

"One Shot" 200mm Ceiling Speaker C2134C
The "One Shot" 200mm Ceiling Speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility, which is highly desirable for emergency paging applications.

(EA0008)

"One Shot" 100mm Ceiling Speaker C2168C
The "One Shot" 100mm Ceiling Speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility, which is highly desirable for emergency paging applications.

(EA0005)
Batteries Sealed Lead Acid

Sealed Lead Acid Battery 1 x 12volt x 75A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12750)

Sealed Lead Acid Battery 1 x 12volt x 7.0A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS1270)

Sealed Lead Acid Battery 1 x 12volt x 40A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12400)

Sealed Lead Acid Battery 1 x 12volt x 33A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12330)

Sealed Lead Acid Battery 1 x 12volt x 24A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12260)

Sealed Lead Acid Battery 1 x 12volt x 12.0A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12120)

Cable

TPS 2 Core Cable
Our TPS cables are ideally suited for Fire Alarm, OWS and EWIS systems. The cables are double insulated and have an outer sheath which is easy to strip and terminate.

Fire Rated 2 Core Cable
Our Fire Rated cables have been specifically designed for use with Australian Fire Alarm and Evacuation systems.

2 total products.
EWIS

WIP Ring Speaker 87mm, 4W 8 Ohm Paper Cone
The WIP Ring Speaker 87mm unit is great as a replacement speaker.
(C0612D)

WIP Phone Surface Mounting Enclosure
The Warden Intercom Point (WIP) Phone Surface Mount Enclosure is designed for use in Emergency Warning Systems.
(EA0412)

Vigilant WIP Phone (RED)
The Vigilant Warden Intercom Point (WIP) Phone RED is designed specifically for use with sound and communication systems; for emergency purposes.
(FP0938)

Speaker AS7240.24
Full range 4” ceiling loudspeaker which features fine power taps at 100V line for 6W, 3W, 1.5W, 0.75W and 0.375W outputs. An optional surface mount box is available for solid ceiling or wall installation.
(FS-SP4-7240)

QE90 EWIS Panel
(QE90)

KAC Manual Call Point (White) with Surface Box
The KAC Manual Call Point with Surface Box (White) is surface mounting, with a plastic coated glass element to ensure reliable, safe operation.
(SU0608)

Horn Speaker 20 watt DIP Rated Eex
The Horn Speaker 20 Watt DIP Rated Eex is a weatherproof and used with a communication and public address system. The M20 cable gland protects against the ingress of dust and water.
(HP-20EExIIIn(T))

Dual Strobe (Red/Amber) c/w Surface Mounting Base 24VDC
The Dual Strobe (Red/Amber) c/w Surface Mounting Base 24VDC unit is for applications where a two stage alarm system or two distinct visible signals are required.
(EA0313)

“One Shot” 200mm Ceiling Speaker C2134C
The “One Shot” 200mm Ceiling Speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility, which is highly desirable for emergency paging applications.
(EA0008)

“One Shot” 100mm Ceiling Speaker C2168C
The “One Shot” 100mm Ceiling Speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility, which is highly desirable for emergency paging applications.
(EA0005)

200mm Round Grill PVC to Suit EA0007
The 200mm Round Grill PVC is applicable to the 200mm Cone Loudspeaker including a Cap ATC 5010-6 Speaker
(EA0101)

200mm Cone Loudspeaker inc. Cap ATC 5010-6
The 200mm Cone Loudspeaker features a tapped line transformer with cover.
(EA0007)

15W Plastic Horn Speaker - IP55 Rated - Large Cone
The 15W Plastic Horn Speaker - IP55 Rated - Large Cone is designed primarily for distributed paging systems.
(EA0016)

10W Plastic Horn Speaker - IP66 Rated - Small inc. Capacitor
Although the 10W Plastic Horn Speaker - IP66 Rated - Small inc. Capacitor is suitable for general paging applications, it has been primarily designed with sound systems for emergency purposes (evacuation systems) in mind.
(EA0013)

100mm Round Grill PVC to Suit EA0006
The 100mm Round Grill PVC is applicable to the 100mm Cone Loudspeaker including a Cap ATC 5010-3 Speaker
(EA0102)

100mm Cone Loudspeaker inc. Cap ATC 5010-3
The 100mm Cone Loudspeaker features a tapped line transformer with cover.
(EA0006)

“One Shot” 200mm Ceiling Speaker C2134C
The “One Shot” 200mm Ceiling Speaker and transformer combination has been specifically engineered to ensure a wide frequency range and dispersion angle, plus a high sound pressure level (SPL) ensuring excellent music and speech intelligibility, which is highly desirable for emergency paging applications.

Simplex

TrueStart2 test tool, comes with 24V power pack battery charger, test leads, instructions and carry bag

The Simplex TrueStart II Test Tool is a portable battery-operated test instrument, designed to enable contractors or technicians to quickly verify that all IDNet wiring and peripheral devices are installed correctly and operating properly.

(TrueStart-AUk)

TrueAlarm IDNET Isolator Base

The 4098-9793 isolator base accepts Simplex TrueAlarm analog sensors and provides communications isolation to improve installation convenience and increase system integrity.

(4098-9793EA)

TrueAlarm Base with Sounder

The 4098-9794EA Photoelectric smoke detector contains a state-of-the-art sensing chamber and analogue communication electronics.

(4098-9794EA)

TrueAlarm Base with Remote LED O/P

TrueAlarm detector bases contain integral addressable electronics that constantly monitor the status of the detachable photoelectric, ionisation, or heat detectors. Each detector’s output is digitised and transmitted to the system CIE every four seconds.

(4098-9798EA)

SIMPLEX Remote LED Mapnet ‘Room’

The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

(2098-1113)

SIMPLEX Remote LED Mapnet ‘Roof Space’

The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

(2098-1110)

SIMPLEX Remote LED Mapnet ‘Return Air’

The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

(2098-1114)

SIMPLEX Remote LED Mapnet ‘In Duct’

The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

(2098-1115)

SIMPLEX Remote LED Mapnet ‘Cupboard’

The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

(2098-1112)

PPU/AIU Door Kit

FP0937 comprises: 1x 4U hinged door & spacer bracket, connector strip, label, & wiring fitted 4x M6 screws/washers/cage nuts for mounting door 5x Cable ties, adhesive cable tie holders for fixing wires 1x Green earth lead + nut, washer for door earth 4x PK screws, plastic spacers for mounting Cube ASE 4x M4 screws/washers for mounting the WA ASE.

(FP0937)

Photo / Heat Multi Sensor - TrueAlarm

TrueAlarm multi-sensor 4098-9754EA combines the TrueAlarm photoelectric smoke sensor with a fast-acting and accurate TrueAlarm thermal sensor to provide both features in a single sensor/base assembly.

(4098-9754EA)

Optical Sensor - TrueAlarm

The 4098-9714EA Photoelectric smoke detector contains a state-of-the-art sensing chamber and analogue communication electronics.

(4098-9714EA)

Serial LCD Annunciator (4100 FIP only)

The Simplex 4603-9101 LCD annunciator provides remote annunciation and control using an 80 character, back-lit, alphanumeric LCD readout. Information is presented in clear, descriptive English language.

(4603-9101)

IDNet Relay Output IAM (RIAM)

Uses RACO232 & Lid

This 4000-9002 Relay IAM allows the CIE to control a remotely isolated Form “C” Relay contact using IDNet addressable communications for both data and module power.

(4090-9002)
IDNet Relay IAM with Unsupervised Input (Uses RACO232 & Lid)
The 4090-9119 allows a 4100ES IDNet communication channel to monitor an unsupervised input contact with one point and control an output relay with the other point, yet occupy a single address.

IDNet Relay IAM with T-Sense Input (Uses RACO232 & Lid)
The 4090-9118 Relay IAM with T-Sense allows a 4100ES IDNet communication channel to monitor two input contact closures with one point and control an output relay with the other point, yet occupy a single loop address.

IDNet Monitor ZAM (Use RACO232 & Lid)
The 4090-9101 Zone Adaptor Module Monitor ZAM allows a 2-wire circuit of collective smoke or heat detectors to be interfaced on to the IDNet loop.

IDnet Encapsulated IAM (Uses RACO232 & Lid)
This IDNet addressable device is an encapsulated version of 4090-9001. It has both power and communications supplied by a two-wire IDNet circuit.

IDnet Addressable Signal IAM (Uses RACO232 & Lid)
This IDNet addressable device provides a supervised, addressable interface to conventional warning devices such as sounders or strobes.

IDnet 6 Point I/O Module (4 I/Ps + 2 relay O/Ps) (Uses RACO232 & Lid)
The 4090-9120 allows 4100ES IDNet communication channel to monitor four T-sense input circuits and control two output relays from a single module requiring a single address.

Housing Without Relay (includes photo sensor)
The TrueAlarm duct sampling unit detects the presence of smoke in air conditioning or ventilating ducts. Sampling tubes are installed into the duct and air is directed to a 4098-9714EA smoke sensor mounted in the housing.

Heat Sensor - TrueAlarm
TrueAlarm heat detectors are self-restoring and provide rate compensated, fixed temperature sensing, selectable with or without rate-of-rise temperature sensing.

ASE Door Kit
4100ES-S1 ASE Door Kit
(FP0935)

Addressable MCP Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.
(SR3T-P)

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4090-9116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

28 total products.
4100 Test Equipment

TrueStart2 test tool, comes with 24V power pack battery charger, test leads, instructions and carry bag.

The Simplex TrueSTART II Test Tool is a portable battery-operated test instrument, designed to enable contractors or technicians to quickly verify that all IDNet wiring and peripheral devices are installed correctly and operating properly.

(TSIT-AUK)
4102 to 4100ESI Annunciator / Mimic / Brigade Panels

Serial LCD Annunciator (4100 FIP only)

The Simplex 4603-9101 LCD annunciator provides remote annunciation and control using an 80 character, back-lit, alphanumeric LCD readout. Information is presented in clear, descriptive English language.

IDNET Addressable ZAMS / IAMS

IDNet Relay Output IAM (RIAM) (Uses RACO232 & Lid)
The 4090-9002 Relay IAM allows the CIE to control a remotely located Form "C" Relay contact using IDNet addressable communications for both data and module power.

IDNet Relay IAM with Unsupervised Input (Uses RACO232 & Lid)
The 4090-9119 allows a 4100ES IDNet communication channel to monitor an unsupervised input contact with one point and control an output relay with the other point, yet occupy a single address.

IDNet Relay IAM with T-Sense Input (Uses RACO232 & Lid)
The 4090-9118 Relay IAM with T-Sense allows a 4100ES IDNet communication channel to monitor two input contact closures with one point and control an output relay with the other point, yet occupy a single loop address.

IDNet Monitor ZAM (Use RACO232 & Lid)
The 4090-9101 Zone Adaptor Module Monitor ZAM allows a 2-wire circuit of collective smoke or heat detectors to be interfaced on to the IDNet loop.

IDnet Encapsulated IAM (Uses RACO232 & Lid)
This IDNet addressable device is an encapsulated version of 4090-9001. It has both power and communications supplied by a two-wire IDNet circuit.

IDNet Addressable Signal IAM (Uses RACO232 & Lid)
This IDNet addressable device provides a supervised, addressable interface to conventional warning devices such as sounders or strobes.

IDNet 6 Point I/O Module (4 I/Ps + 2 relay O/Ps) (Uses RACO232 & Lid)
The 4090-9120 allows 4100ES IDNet communication channel to monitor four T-sense input circuits and control two output relays from a single module requiring a single address.

Addressable MCP Mounting Box
Red surface mounting back box (for indoor callpoints) with terminals fitted.

Addressable IDNet Isolator (Uses RACO232 & Lid)
The 4090-9116 Isolator provides IDNet communications isolation, improving installation convenience and system integrity.

Remote LEDs for MAPNET / IDNET Detectors

SIMPLEX Remote LED Mapnet 'Room'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

SIMPLEX Remote LED Mapnet 'Roof Space'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

SIMPLEX Remote LED Mapnet 'Return Air'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

SIMPLEX Remote LED Mapnet 'In Duct'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

SIMPLEX Remote LED Mapnet 'Cupboard'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

SIMPLEX Remote LED Mapnet 'Concealed Space'
The 2098-1xxx range of remote indicators provide remote indication of an alarm condition on a detector fixed on a 4098-97xx detector base. These remote indicators are not suitable for connection to any other MAPNET II or IDNet module.

VLI Secondary Foam Filter Spare Part
The VESDA VLI filtration system effectively reduces the level of pollution in the air sample before it enters the detection chamber.
(VSP-031)

VLI Secondary Filter Spare Part
(VSP-031)

VLI Intelligent Filter Spare Part
The VESDA VLI Intelligent Filter effectively reduces the level of pollution in the air sample before it enters the detection chamber.
(VSP-030)

VLI Chamber Assembly Spare Part
The VESDA VLI Chamber Assembly is a field-replaceable component of the VESDA VLI detector.
(VSP-033)

VLI Aspirator Spare Part
The VESDA VLI Aspirator is a field-replaceable component of the VESDA VLI detector.
(VSP-032)

VLI Secondary Foam Filter Spare Part
The VESDA VLI filtration system effectively reduces the level of pollution in the air sample before it enters the detection chamber.
(VSP-031)

VLF 3 Relay & 1 Input Multifunction Control Card
The VESDA LaserFOCUS Relay Multifunction Control Card is an interface card for the range of Xtralis VESDA VLF smoke detectors. A MCC expands the range of input and output communications a VLF detector can perform.
(VAC-030)

VESDAnet Simplex High Level Interface, Sliding Window
The VESDA Modbus High Level Interface (HLI) links your VESDANet with PC software monitoring tools, Building Management Systems (BMSs) or Fire Alarm Control Panels (FACPs), otherwise known as host, that support the Modbus protocol.
(VHX-0400)

VESDAnet PC Link High Level Interface, Sliding Window
The VESDA Sliding Windows High Level Interface (HLI) links your VESDANet with PC software monitoring tools, Building Management Systems (BMSs) and Fire Alarm Control Panels (FACPs), otherwise known as host.
(VHX-0200)

VESDAnet PC Link High Level Interface, Open Protocol
The VESDA Open Protocol High Level Interface (HLI) links your VESDANet with PC software monitoring tools, Building Management Systems (BMSs) and Fire Alarm Control Panels (FACPs), otherwise known as host.
(VHX-0310)

VESDAnet Interface (VN) Card
The VESDAInterface Card (VN Card) is a simple interface card for the range of VESDA VLF by Xtralis aspirating smoke detectors.
(VIC-010)

VESDA VLQ-100 Demo Kit (inc Pipes, PSU, Carry Case)
VESDA VLQ-100 Demo Kit (inc Pipes, PSU, Carry Case)

VESDA VLQ Surface Mount Kit
The Surface Mount Kit is for the VESDA VLQ detector.
(VSP-890)

VESDA VLQ Replacement Filter Pack 20
VESDA VLQ Replacement Filter Pack 20
(VSP-892-20)
VESDA VLQ Replacement Filter
VESDA VLQ Replacement Filter (VSP-892)

VESDA VLQ Flush Mount Kit
The Flush Mount Kit is for the VESDA VLQ detector. (VSP-891)

VESDA VLQ 2 Pipe Stubs and End Caps
VESDA VLQ 2 Pipe Stubs and End Caps (VSP-893)

VESDA VLI with VESDAnet
VESDA VLI with VESDAnet (VLI-885)

VESDA VLC-505-EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-505-EX)

VESDA VLC-500-EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-500-EX)

VESDA VLI with Relays and Ethernet Only
VESDA VLI with Relays and Ethernet Only (VLI-880)

VESDA VLI with Relays and Ethernet Only - Marine Version
VESDA VLI with Relays and Ethernet Only - Marine Version (VLC-8000-MRN)

VESDA LaserPlus Compact Relays Only
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-500)

VESDA LaserFOCUS VESDAnet Compatible For 500m²
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser based aspirated smoke detection technology. (VLF-500-02)

VESDA LaserFOCUS Relays Only
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser based aspirated smoke detection technology. (VLF-250-02)

VESDA Test Transformer
Xtralis Test Transformer VTT-1000 (previously known as the Hot Wire Test – Power Supply Unit (PSU)) is a tool used to test very early warning aspirated smoke detection equipment. (VTT-1000)

VESDA LaserFOCUS Relay Expansion Card
The VESDA LaserFOCUS Relay Expansion Card is an interface card for the range of Xtralis VESDA VL smoke detectors. A Relay Expansion Card expands the range of input and output communications a VL can perform. (VIC-020)

VESDA LaserCompact Relays Only - Marine Version
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-8000-MRN)

VESDA LaserCompact MX Addressable
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-800MX)

VESDA Laser Compact VESDAnet
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas. (VLC-605)

VESDA Inline Filter c/w Filters
The VESDA In-Line Filter is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors. (VSP-850-G)

VESDA Inline Filter 4 Pack Elements Only
The VESDA In-Line Filter (4 Pack) is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors. (VSP-855-4)

VESDA Inline Filter 20 Pack Elements Only
The VESDA In-Line Filter (20 Pack) is an in-line filtration solution suitable for all VESDA Xtralis Aspirating Smoke Detectors. (VSP-855-20)

VESDA ECO Single Gas Hydrogen (H2) 0-100% LEL
VESDA Eco Single Gas Hydrogen Gas Detector
Xtralis has developed the industry’s first multi-hole aspirated gas detector. (ECO-D-B-11)

VESDA LaserFOCUS Expansion Card
VESDA LaserFOCUS Expansion Card (VLI-885-G)

VESDA E Range VEU Premium Aspirated Detector with 3.5” Display
The VEU series of aspirating smoke detectors are the premium detector of the VESDAR range. An Ultra-wide sensitivity range: 15 times greater than VESDA VI. (VEU-A10)

Small Radius Bend (90mm)
This product is a Small Radius Bend (90mm)
(E700-SB)

Sampling Point Label RED per sheet of 12
This product is a Sampling Point Label RED per Sheet of 12.
(E700-SPLR)

Sampling Point Heat Activated
This product is a Heat Activated Sampling Point
(E700-HASP)

Sampling Point Decal - 200 per roll
This product is a Sampling Point Decal - 200 per roll.
(E700-SPDCL)

Remote Box with VESDAnet Socket
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-300)

Remote Box with VESDA VLI Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-Q00)

Remote Box with VESDA VLI Display No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-T00)

Remote Box with VESDA LaserFOCUS, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-V00)

Remote Box with Surround Only (No Termination Card)
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-000)

Remote Box with Scanner Display, No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-700)

Remote Box with Scanner Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-400)

Remote Box with Scanner Display, 12 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-800)

Remote Box with LaserCompact Display, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-J00)

Remote Box with Displays, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-200)

Remote Box with Display, No Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-600)

Remote Box with Blank Plate, DRP, 7 Relays
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-E00)

Remote Box with Blank Plate, 7 Relays, Driver
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-500)

Remote Box with Blank Plate, 12 Relay Card, Driver
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
(VRT-900)

Power Supply 24VDC 2A in Cabinet to Match VESDA LaserPlus
The VESDA Power Supply (24VDC 2A) in Cabinet is uniquely designed to complement the style and appearance of VESDA LaserPLUS aspirating smoke detectors (ASD).
(FP0852)
Pipe Junction Fitting
This product is a Pipe Junction Fitting.
(E700-PJ)

Pipe Clip Single Point Fix
This product is a Pipe Clip Single Point Fix.
(E700-PC)

OSID Wire Guard
A steel cage to protect Open-area Smoke Imaging Detection Imagers and Emitters from vandalism and accidental damage.
(OSID-WG)

OSID Install Kit - Laser Tool, Test Filter, PC Cable, Cleaning Cloth, Manual
Open-area Smoke Imaging Detection Installation Kit includes Laser Alignment Tool, Test Filter, PC Cable, Reflections, and Manual.
(OSID-INST)

OSID Imager Environmental
Imager Environmental Housing Custom designed IP 66, NEMA 4-4X protective and environmental housings protect OSID Imagers from dust and water ingress in industrial environments.
(OSID-EHI)

OSID Emitter Environmental
Emitter Environmental Housing Custom designed IP 66, NEMA 4-4X protective and environmental housings protect OSID Emitters from dust and water ingress in industrial environments.
(OSID-EHE)

OSID Demo Kit - 2 x OSE-SPW, 1 x OSI-90, 1 x OSID-INST, in Carry Case with Mounting Plates.
Open-area Smoke Imaging Detection Demo Kit consists of 2 X OSE-SPW, 1 X OSI-90, 1 X OSID-INST and Mounting Plates, fitted in a rugged carry case.
(VKT-301)

OSID Anti Condensation Film for Emitter Pack 10
Anti-condensation film for OSID Emitters An easy applicable film that provides a long time resistance to condensation on the acrylic Emitter lens.
(OSE-ACF)

Long Radius Bend (150mm)
This product is a Long Radius Bend (150mm)
(E700-LB)

LaserPLUS Handheld Programmer c/w Cable
The LaserPLUS Handheld Programmer including a lead for temporary connection of a programmer to a network via a VESDAnet socket.
(VHH-100)

LaserPlus c/w Fire & OK LEDs, 2 Blanks
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.
(VLP-400)

LaserPlus c/w Blank, Blank, Programmer
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.
(VLP-001)

Laser Plus c/w Blank, 2 Display
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.
(VLP-022)

LaserPlus c/w Blank, 1 Display, Programmer
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line.
(VLP-012)

Laser COMPACT Replacement Aspirator
The VESDA V/LC Aspirator is a field-replaceable component of the VESDA LaserCOMPACT detector.
(VSP-001)

Laser Alignment Tool
A unique alignment tool for fast alignment. Aligns and locks the eyeball, and is able to activate Emitters with locked.
(OSP-002)

Imager - 80° Coverage, 24V DC
Open-area Smoke Imaging Detection (OSID) Imager 80° FOV
(OSI-90)

Imager - 7° Coverage, 24V DC
Open-area Smoke Imaging Detection (OSID) Imager 7° FOV
(OSI-10)

Imager - 38°
Open-area Smoke Imaging Detection (OSID) Imager 38° FOV
(OSI-45)
FTDI Cable 1.5M
FTDI Cable 1.5 Metres
Allows to connect to a PC and hence OSID Diagnostic SW to the Imager. The FTDI cable can be extended with another 20m using a cable with an active USB amplifier.

(Filter Cover
The VESDA Filter Cover, spare parts.

FD7 LaserPlus Scanner c/w 3 Blanks, Fire 1 & OK LEDs, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-000)

FD7 LaserPlus Scanner c/w 3 Blanks, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-200)

FD7 LaserPlus Scanner c/w 2 Blanks, 1 Display, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-204)

FD7 LaserPlus Scanner c/w 1 Blank, 1 Display, 1 Programmer, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-214)

FD12 LaserPlus Scanner c/w 2 Blanks, 1 Display, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-304)

FD12 LaserPlus Scanner c/w 1 Blank, 1 Display, 1 Programmer, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-314)

FD12 LaserPlus Scanner c/w 3 Blanks, Fire 1 & OK Leds, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within the zone.

(VLS-700)

End Cap (Not drilled)
This product is a End Cap (Not Drilled).

(E700-EC)

Emitter - Standard Power Wired at 24V DC
Open-area Smoke Imaging Detection Wire Powered 24VDC Emitter

(OSE-SPW)

Capillary Tube 5.2mm id 8mm od per metre
This product is a Capillary Tube 5.2mm ID 8mm OD per metre.

(E700-CT)

Capillary Sampling Connector for Capillary Tubes
This product is a Capillary Sampling Connector for Capillary Tubes.

(E700-CSC)

9 Pin M/F Lead for VESDA HLI VHX-0200
The VESDA 9 Pin Serial Lead is a cable for direct programming of the VESDA LaserFOCUS and VESDA LaserCOMPACT detectors.

(VSP-509)
19" Rack c/w 4 Blanks
To complement the VESDA range of detectors, displays and
programmers in a 19 inch subrack enclosure is available.
(VSR-0000)
Air Sampling System Components

**Trunk Adaptor used for Capillary Tubes**
This product is a Trunk Adaptor used for Capillary Tubes.
(E700-TA)

**Solid Tee Piece Fitting**
This product is a Solid Tee Piece Fitting.
(E700-T)

**Small Radius Bend (90mm)**
This product is a Small Radius Bend (90mm).
(E700-SB)

**Sampling Point Label RED per sheet of 12**
This product is a Sampling Point Label RED per Sheet of 12.
(E700-SPLR)

**Sampling Point Heat Activated**
This product is a Heat Activated Sampling Point.
(E700-HASP)

**Sampling Point Decal - 200 per roll**
This product is a Sampling Point Decal - 200 per roll.
(E700-SPDCL)

**Pipe Junction Fitting**
This product is a Pipe Junction Fitting.
(E700-PJ)

**Pipe Clip Single Point Fix**
This product is a Pipe Clip Single Point Fix.
(E700-PC)

**Long Radius Bend (150mm)**
This product is a Long Radius Bend (150mm).
(E700-LB)

**End Cap (Not drilled)**
This product is an End Cap (Not Drilled).
(E700-EC)

**Capillary Tube 5.2mm id 8mm od per metre**
This product is a Capillary Tube 5.2mm ID 8mm OD per metre.
(E700-CT)

**Capillary Sampling Connector for Capillary Tubes**
This product is a Capillary Sampling Connector for Capillary Tubes.
(E700-CSC)

**Alternative to VESDA Pipe 4 metre x 750 lengths**
This product is an alternative to VESDA Pipe 4 metre x 750 lengths.
(E700-crate)

**Alternative to VESDA Pipe 4 metre x 10 lengths**
This product is an alternative to VESDA Pipe 4 metre x 10 lengths.
(E700-P)

E Range

VESDA E Range VEU Premium Aspirated Detector with 3.5” Display

The VEU series of aspirating smoke detectors are the premium detector of the VESDA-E range. An Ultra-wide sensitivity range; 15 times greater than VESDA VLP (VEU-A10)

VESDA E Range VEU Premium Aspirated Detector LED Only Display

The VEU series of aspirating smoke detectors are the premium detector of the VESDA-E range. An Ultra-wide sensitivity range; 15 times greater than VESDA VLP (VEU-A00)

VESDA E Range VESDA VEP w LEDs, Plastic Enclosure

The VESDA-E VEP series of smoke detectors bring the latest and most advanced detection technology to provide very early warning and the best nuisance alarm rejection to a wide range of applications (VEP-A00-P)

VESDA E Range VESDA VEP w 3.5” Display, Plastic Enclosure

The VESDA-E VEP series of smoke detectors bring the latest and most advanced detection technology to provide very early warning and the best nuisance alarm rejection to a wide range of applications (VEP-A10-P)

LaserCOMPACT

VESDA VLC-505-EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-505-EX)

VESDA VLC- 500- EX
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-500-EX)

VESDA LaserPlus Compact Relays Only
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-500)

VESDA LaserCompact Relays Only - Marine Version
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-50000-MRN)

VESDA LaserCompact MX
Addressable
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.
(VLC-800MX)

VESDA Laser Compact VESDAnet
The LaserCOMPACT is an aspirating smoke detector that provides all the benefits of aspirating smoke detection, including very early warning, for small areas.

LaserFOCUS

**VLF 3 Relay & 1 Input Multifunction Control Card**
The VESDA LaserFOCUS Relay Multifunction Control Card is an interface card for the range of Xtralis VESDA VLF smoke detectors. A MCC expands the range of input and output communications a VLF detector can perform.

(VIC-030)

**VESDA Interface (VN) Card**
The VESDA Interface Card (VN Card) is a simple interface card for the range of VESDA VLF by Xtralis aspirating smoke detectors.

(VIC-018)

**VESDA LaserFOCUS VESDA Compatible For 500m²**
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser-based aspirated smoke detection technology.

(VLF-500-02)

**VESDA LaserFOCUS Relays Only**
The VESDA LaserFOCUS early warning air sampling smoke detector incorporates world leading VESDA very early warning laser-based aspirated smoke detection technology.

(VLF-250-02)

**VESDA LaserFOCUS Relay Expansion Card**
The VESDA LaserFOCUS Relay Expansion Card is an interface card for the range of Xtralis VESDA VLF smoke detectors. A Relay Expansion Card expands the range of input and output communications a VLF can perform.

(VIC-020)

**Power Supply 24VDC 2A in Cabinet to Match VESDA LaserPlus**

Power Supply 24VDC 2A in Cabinet to Match VESDA LaserPlus

The VESDA Power Supply (24VDC 2A) in Cabinet is uniquely designed to complement the style and appearance of VESDA LaserPlus aspirating smoke detectors (ASD).

(FP0852)
LaserPlus

**VSM4 VESDAnet Network Connection**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VESDAnet network connection software.

(VSW-346)

**VSM4 VESDAnet Detector Connection**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VESDAnet detector connection per detector.

(VSW-356)

**VSM4 Secondary Site Licence**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 Central Site License - Primary PC

(VSW-216)

**VSM4 Remote Notification Email / SMS Support Per PC**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VMS4 Remote Notification Email / SMS Support per PC

(VSW-600)

**VSM4 Primary Site Licence**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 Central Site License - Primary PC

(VSW-206)

**VSM4 and PSM4 Connection Token (21-100) per token**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 and PSM4 Connection Token (21-100) per token

(VSW-427-002)

**VSM4 and PSM4 Connection Token (1-20) per token**
Xtralis VSM4 provides full and comprehensive integration of your ASD system, including the VSM4 and PSM4 Connection Token (1-20) per token

(VSW-427-001)

**VESDAnet Simplex High Level Interface, Sliding Window**
The VESDA ModBus High Level Interface (HLI) links your VESDA with PC software monitoring tools, Building Management Systems (BMSs) or Fire Alarm Control Panels (FACPs), otherwise known as ‘host’, that support the ModBus protocol.

(VHX-0400)

**VESDAnet PC Link High Level Interface, Sliding Window**
The VESDA Sliding Windows High Level Interface (HLI) links your VESDA with PC software monitoring and configuring tools such as Xtralis VSM4 and Xtralis VSC.

(VHX-0200)

**VESDAnet PC Link High Level Interface, Open Protocol**
The VESDA Open Protocol High Level Interface (HLI) links you VESDA with PC software monitoring tools, Building Management Systems (BMSs) and Fire Alarm Control Panels (FACPs), otherwise known as ‘host’.

(VHX-0310)

**VESDA Test Transformer**
Xtralis Test Transformer VTT-10000 (previously known as the Hot Wire Test – Power Supply unit (PSU)) is a tool used to test very early warning aspirated smoke detection equipment.

(VTT-1000)

**Remote Box with VESDA VLI Display, 7 Relays**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-000)

**Remote Box with VESDA VLI Display No Relays**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-T00)

**Remote Box with VESDA LaserFOCUS, 7 Relays**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-700)

**Remote Box with Scanner Display, No Relays**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-V00)

**Remote Box with Scanner Display, 12 Relays**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-800)

**Remote Box with Surround Only (No Termination Card)**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

(VRT-400)

**Remote Box with Programmers**
VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-Q00)

- Remote Box with VESDA VLI Display No Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-T00)

- Remote Box with VESDA LaserFOCUS, 7 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-V00)

- Remote Box with Surround Only (No Termination Card)
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-000)

- Remote Box with Scanner Display, No Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-700)

- Remote Box with Scanner Display, 7 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-400)

- Remote Box with Scanner Display, 12 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-800)

- Remote Box with Programmer
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-100)

- Remote Box with Display, No Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-600)

- Remote Box with Display, 7 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-200)

- Remote Box with Displays, 7 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-500)

- Remote Box with Blank Plate, DRP, 7 Relays
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-E00)

- Remote Box with Blank Plate, 12 Relay Card, Driver
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.
  (VRT-900)

- Remote Box with Blank Plate, 7 Relays, Driver
  VESDA Remote Display modules provide real-time indication of the status of a VESDA detector.

LaserPLUS Detectors

LaserPlus c/w Fire & OK LEDs, 2 Blanks
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line. (VLP-400)

LaserPlus c/w Blank, Blank, Programmer
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line. (VLP-001)

LaserPlus c/w Blank, Blank, 1 Display
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line. (VLP-002)

LaserPlus c/w Blank, 2 Display
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line. (VLP-022)

LaserPlus c/w Blank, 1 Display, Programmer
The VESDA LaserPLUS by Xtralis is the flagship of the VESDA aspirating smoke detector product line. (VLP-012)

Scanners

FD7 LaserPlus Scanner c/w 3 Blanks, Fire 1 & OK LEDs, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-600)

FD7 LaserPlus Scanner c/w 3 Blanks, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-200)

FD7 LaserPlus Scanner c/w 2 Blanks, 1 Programmer, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-210)

FD7 LaserPlus Scanner c/w 2 Blanks, 1 Display, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-204)

FD7 LaserPlus Scanner c/w 1 Blank, 1 Display, 1 Programmer, 7 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-214)

FD12 LaserPlus Scanner c/w 3 Blanks, Fire 1 & OK Leds, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-700)

FD12 LaserPlus Scanner c/w 2 Blanks, 1 Display, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-304)

FD12 LaserPlus Scanner c/w 1 Blank, 1 Display, 1 Programmer, 12 Relays
The VESDA LaserPlus Scanner is a four air inlet aspirating smoke detector apparatus used to detect most level during the early stages of fire from 4 sectors within fire zone.
(VLS-314)

Vigilant

Wire Guard for Detectors (195 Dia. x 120 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W502)

Wire Guard for Detectors (130 Dia. x 105 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W504)

Wire Guard for Detectors (115 Dia. x 80 High)
W500 Series detector cages are available in a range of sizes to cater for most of the detectors that are available through Tyco Fire Protection Products.
(W500)

VIO800 VESDA Interface Module c/w Bracket (can use on 4100ESI)
The VIO800 is an arrangement of the MIO800 Addressable Multi-I/O Module supplied ready to be fitted on to a VESDA LaserPLUS™ or Laser SCANNER
(516.018.014)

VESDA Power Supply in Cabinet
24VDC 2A to match VESDA LaserPlus
This Series 1948 Power Supply is designed to match the VESDA LaserPLUS and LaserSCANNER detectors in size and colour.
(FP0852)

VENTILAX Smoke Emitter Pack of 5 (4 Minute Burn Time)
Ventilax Smoke Cartridge, 5 60g cartridges, dia 18x62mm, 17m3 smoke vol, 180-240s burn time
(X62)

Tyco 614TD Type D Heat Detector
(4098-9640EA)

Tyco 614TA Type A Heat Detector
(4098-9637EA)

Tyco 614TB Type B Heat Detector
(4098-9638EA)

Tyco 614TC Type C Heat Detector
(4098-9639EA)

Tyco 614P Conventional Photo Optical Detector
The 614P is capable of detecting the visible smoke produced by materials which smoulder or burn slowly, i.e. soft furnishings, plastic foam etc. or 'smoke' produced by overheated but unburnt PVC.
(516.600.301)

TYCO 614CH Conventional Carbon Monoxide Detector
The 614CH fire detector provides very early warning of slow smouldering fires. The CO fire detector is well suited to many applications where heat detection is insufficient but smoke detection causes unwanted alarms. As CO travels more freely than smoke, the positioning of CO fire detectors is more flexible
(516.600.304)

Transparent Hinged Cover Suits KAC Manual Call Points
Transparent Hinged Cover Suits KAC Manual Call Points
(SU0615)

Thorn S330 Smoke Detector Tester
SOL0030 Aerosol dispenser for use with all detector ranges. Connects directly to S100/S101 poles
(517.001.255)

Thorn S200 Universal Detector Removal Tool - Requires X100/X101
SOL0020 Universal detector changer for use with various manufacturers detectors - not suitable for M600/900 series low profile. Connects directly to SOL0100/101 poles
(517.001.240)

T54B Type E Probe Heat Detector
Constructed from stainless steel, the T54B is an extremely rugged heat detector that can be used to detect fires in the harshest of environments.
(T4E600Xx)
**T210 Test Source for S200 Series Detectors (Need X704 & X100/X101)**

T210+ Test Source for use with SOLO 704 Adaptor Tube B and SOLO100/101 poles

**T210 Adaptor for use with S200 Series Detectors**

T210+ Adaptor for S200 Detectors

**T210 Adaptor for use with SOLO 704 Adaptor Tube B and SOLO100/101 poles (592.001.016)**

**T-GEN / QE90 Microphone Flat 4-way plug (ECP9702 only)**

The hand held dynamic microphone is fitted with a press-to-talk button. It is suitable for plugging into T-GEN 50 and QE90 to provide emergency PA and recording of digitised speech messages.

**System Sensor 885WP-B Heat Fixed Weatherproof**

The 885WP-B is a 2 wire fixed temperature Type B heat detector. This detector is designed to provide open area protection in areas subject to moisture (885WP-B)

**Strobe Light Multi-Candela Synchronised White Wall Mount**

The 4906-910x Multi-Candela strobe is a high output xenon strobe capable of signalling evacuation using the ISO 8201 "T2" temporal pattern, as required by AS1670.4-2004 and AS1670.1-2004.

**Strobe Lamp - Red TK86HP24 (3.15 joules, 320mA, 90FPM, IP55)**

Strobe Lamp - Red TK86HP24 (EA0306)

**Strobe Lamp - Red Ax35 (0.6 joules, 100mA, 130FPM, IP54)**

Strobe Lamp - Red Ax35 (EA0302)

**Strobe Lamp - Amber TK86HP24 (3.15 joules, 320mA, 90FPM, IP55)**

Strobe Lamp - Amber TK86HP24 (EA0305)

**Strobe Lamp - Amber Ax35 (0.6 joules, 100mA, 130FPM, IP54)**

Strobe Lamp - Amber Ax35 (EA0301)

**Stainless Steel Detector Cover - Flush Mounted**

The STI-8200-SS Series detector cages are available in flush mount or surface mount configuration. (STI-8200-SS)

**Splintex Smoke Match Pack 25 Burn Time 25 Seconds**

Splintex Smoke Matches, 25 1g matches, 0.7m3 smoke vol, 25s burn time (X65-25)

**Solo Test Smoke - Aerosol Can**

Solo Test Smoke 250ml can

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Splintex Smoke Match Pack 25 Burn Time 25 Seconds**

Splintex Smoke Matches, 25 1g matches, 0.7m³ smoke vol, 25s burn time (X65-25)

**Solo Test Smoke - Aerosol Can**

Solo Test Smoke 250ml can

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Splintex Smoke Match Pack 25 Burn Time 25 Seconds**

Splintex Smoke Matches, 25 1g matches, 0.7m³ smoke vol, 25s burn time (X65-25)

**Solo Test Smoke - Aerosol Can**

Solo Test Smoke 250ml can

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)

**Splashex Smoke Match Pack 25 Burn Time 25 Seconds**

Splashex Smoke Matches, 25 1g matches, 0.7m³ smoke vol, 25s burn time (X65-25)

**Solo Test Smoke - Aerosol Can**

Solo Test Smoke 250ml can

**Smoke Detector Test Kit Includes X100, X200, X330 and X600**

SOL0811 Smoke detector test kit including SOL030 aerosol dispenser, SOL0201 detector removal tool, SOL0105 pole, SOL0107 extension tube and SOL0109 equipment bag. 800RT and SOL0734 may be ordered separately.

(X811)
Sealed Lead Acid Battery 1 x 12volt x 7.0A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS1270)

Sealed Lead Acid Battery 1 x 12volt x 40A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12400)

Sealed Lead Acid Battery 1 x 12volt x 33A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12330)

Sealed Lead Acid Battery 1 x 12volt x 24A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12260)

Sealed Lead Acid Battery 1 x 12volt x 12.0A/H
These rechargeable batteries are lead-lead dioxide systems. The dilute sulphuric acid electrolyte is suspended and thus immobilised.
(PS12120)

SAM800 Sounder Driver Module
The Sounder Addressing Beacon SAB801 and Sounder Addressable Module, SAM800 are designed to control an MX loop powered sounder base or relay base for use with compatible MX CIE
(516.800.954)

SAB801 Sounder Address LED Beacon
The Sounder Addressing Beacon SAB801 and Sounder Addressable Module, SAM800 are designed to control an MX loop powered sounder base or relay base for use with compatible MX CIE
(516.800.956)

S100/S200 Bracket Assembly Stainless Steel for use with S100/S200 Flame Detectors
Stainless Steel bracket assy for with all S100/200 Series detectors
(517.001.184)

Round Remote Indicator 75mm Dia - FIRE IN LIFT SHAFT
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E527)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOM
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E523)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOF
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E526)

Round Remote Indicator 75mm Dia - FIRE ALARM IN DUCT
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E525)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CUPBOARD
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E529)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CONCEALED SPACE
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E521)

Round Remote Indicator 75mm Dia - FIRE ALARM ABOVE
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E524)

Round Remote Indicator 75mm Dia - FIRE ALARM
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E502)

Red Surface Mount Strobe with Backbox c/w "FIRE" Lettering 25mm 24VDC
The 40020B is designed to be mounted on a flat external wall. It is weather resistant and made of fire resistant ABS. Screws, caps and a back box is supplied.
(40020B)

QRM850 Quad Relay Module
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems.
(555.800.073)

QMO850 Quad Monitored Output
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems.
(555.800.070)

QIO850 Quad I/O Module
The MX Quad Ancillary Modules form a versatile new range of multiple input and output modules for use with MX TECHNOLOGY systems.
(555.800.071)
PSU 24VDC 12A (PSU2412F)
Mounted in 8U x 180 Battery Box (FP0803)

Power Supply 1948 Series 24VDC 2A
Series 1948 Power Supplies are designed specifically for use in fire alarm systems. They provide a compact, self-contained 24 volts dc mains power supply. (FP0766)

MX4428 AS4428 Network Display, 4U 19" Rack Module
The Network Display Unit (NDU) is a fire alarm repeater panel compatible with the Panel-Link Network and the associated range of networked fire alarm systems (eg. MX4428, F3200). It provides alphanumeric display of alarms on a 2 line by 40 character LCD and keypad. The NDU is able to display alarms and status, and control all fire alarm panels connected to the network. (FP0794)

MX4428 PSU,240VAC 24V 2.5A Mains Socket Fitted (replaces FP0874/FP0825)
The 5A ME0476 Power Supply is a direct replacement for older 2.5A FP0874/FP0825 supplies (ME0476)

MX4428 ADR-M 4mA Detector Current 1901-116
The FP0755 version of ADR supports the 15V MCP, the 614 series of detectors and all the other detectors from earlier versions of ADR, along with some new programmable circuit types. (FP0755)

MX1 Single Loop 8U Panel 3U Blank
The VIGILANT MX1 is an innovative, networkable, multi-loop analogue addressable fire indicator panel incorporating the latest technology and complying with the ISO-based AS 7240.4.2004, its support for Tyco MX technology, fuzzy logic detection algorithms and powerful control functions make it suitable for a wide range of fire protection applications for small to medium size systems and those in hazardous areas. (FP0948)

MX1 Loop Card Kit
The MX Digital Loop Card provides MX loop communications for the Simplex 4100ESI fire alarm panel via a single electrically isolated MX Digital loop. It supports up to 256 MX devices - detectors and modules - and provides up to 300mA of loop power. (FP0950)

MX Sounder Module
The SNM800 Sounder Notification Module can be used to switch an external power source to sounders, extinguishing devices or other auxiliary equipment. (SNM800)

MX Programmable Relay Base
The 814RB Addressable Relay Base provides two sets of changeover volt-free relay contacts capable of switching 1A (resistive) @30Vdc. (814RB)

MX Mk2 Loop Powered Sounder Base
The B222589/12B Addressable Sounder Bases provide a soundsor function on MX addressable systems. Designed for indoor use, they require an associated detector in order to operate, as each base is controlled by its detector. (B222589/12B)

MX CP840Ex Intrinsically Safe(I.S) Manual Callpoint
The CP840Ex Intrinsically Safe Waterproof Break Glass Manual Call Point is designed to monitor and signal the condition of the switch contact associated with the call point. The callpoint is designed to comply with EN 50 014 and EN 50 020 for intrinsically safe apparatus. (514.800.513)
MX Addressable Indoor Call Point (no back box)
The CP820 Indoor Addressable Manual Call Point has a plastic coated frangible element to ensure safe and reliable operation, producing no dangerous glass shards. It is operated by simply pressing on the centre of the frangible element until it snaps. (CP820)

MR601TEX High Performance Optical Intrinsically Safe
The MR601TEX has been developed to overcome the slower response of the optical detectors to hot burning fires, by increasing the sensitivity of the optical detector when it is associated with a rapid change in temperature. (516.054.011.y)

MIMAX Smoke Emmitter Pack 10 Burn Time 40 Seconds, Grey Smoke
Mimax Smoke Cartridge, 10-3g cartridges, dia 14x32mm, 2.0m3 smoke vol, 40s burn time (X66)

MCP830 MX IP67 Addressable MCP with Isolator No Backbox
(514.800.612)

MCP820 MX Addressable MCP with Isolator No Backbox
(514.800.611)

Magnetic Door Holder Wall Mounted 25kg
The FP101 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated. (FP101)

M520 Ancillary Cover for MX Devices
MX Module Cover incl PCB cover and screws (517.035.007)

Fire & Safety WA catalog
This catalog was generated on September 24, 2020
LPSY865R - Addressable Loop Powered Sounder
MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.

MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power.
(516.800.963)

Local Gas Control Station Auto c/w Isolate Switch
Local Gas Control Stations (LGCS) are used in gaseous fire extinguishing systems to provide local area manual control of a release. The automatic version includes a Gas Inhibit switch, buzzer and LED, whereas the manual version (FP0572) does not.

LIM800 Line Isolator Module
The LIM800 Line Isolator Module is designed to be used on the MX addressable controller loop circuits
(545.800.004)

KAC RED Manual Call Point (back box only)
Red Backbox
(SU0632)

KAC RED Manual Call Point
The SU0631 Manual Call Point is supplied with one normally open and one normally closed contact.
(SU0631)

KAC Manual Call Point Test Key (Pack of 10)
Packet of ten Test keys for Tyco MCPs
(SC070)

KAC Manual Call Point Plastic Insert Element
Flexible plastic element
(515.001.127)

KAC Manual Call Point - IP67 Weatherproof/Special Environment Unbranded
This surface mounting Manual Call Point has an Ingress Protection rating of IP67, making it suitable for wet area applications. The callpoint is operated by simply pressing on the centre of the frangible element until it snaps, which releases a microswitch, signaling an alarm at the CIE.
(SU0634)

Isolation Amplifier, 100V, 50W
The FP0875 Isolation Amplifier connects to an existing 100V speaker line and reproduces this signal at up to 50W load on a separate supervised 100V line. It is suitable for use with speech and music as well as with warning tones.
(FP0875)

ISO 8201 Strobe Driver Board PCB Assy 1922-77
The ISO 8201 Strobe Driver generates an ISO 8201 compliant “T3” pattern for the Multi-Candela strobe 4906-9104.
(PA1043)

F4000 Responder Relay Module (RRM) PCB Assembly 1901-15
The Responder Relay Module (RRM) is an optional add-on board to an ADR. When added the responder the combination is referred to as an Advanced Relay Responder (ARR). The RRM provides four relay outputs, which may be individually configured as supervised or not.
(PA0453)

F4000 Multi-Protocol Resp (MPR) 1901-141
MPR Responder in Box (PA0713 PCB only)
(FP0575)

F4000 Multi Prot Resp (MPR) PCB Assy 1901-141
Multi Protocol Responder (MPR)
(PA0713)

Gentex GX93 Mini Horn Temporal 3 or Continuous Tone
The GX93 is ideal for applications where a dependable alarm signal is required in hotels, dormitories, apartments, and other installations
(GX93W)
F4000 Loop Booster Unit 1901-36
The MX4428/F4000 Loop Booster overcomes problems such as Responder loop voltage drop and excessive loop length that would otherwise necessitate a restriction in responders or the use of thicker loop cable.

(FP0487)

F4000 ADR-M 4mA Detector Current 1901-116
The F4000 version of ADR supports the 15V MCP, the 614 series of detectors and all the other detectors from earlier versions of ADR, along with some new programmable circuit types.

(FP0755)

F3200 FIP 8 Zones Fitted Small Cabinet 3A MAF/PSU
The F3200 is a self-contained, modular, microprocessor based FIP which performs the functions of the CIE as specified by AS 4428.

(FP0784)

F3200 FIP 8 Zone Fitted 64 Max c/w Cardframe 3A PSU
The F3200 is a self-contained, modular, microprocessor based FIP which performs the functions of the CIE as specified by AS 4428.

(FP0781)

F3200 FIP 8 Zone Fitted 24 Max No Cardframe 6A PSU
The F3200 is a self-contained, modular, microprocessor based FIP which performs the functions of the CIE as specified by AS 4428.

(FP0782)

F3200 Empty Cabinet with Window 750H x 211D x 550Dmm
MX4428/F3200 15U Cabinet only

(FP0556)

F3200 Cardframe Upgrade Kit
A KT0072 Cardframe upgrade kit can be fitted to a 15U F3200 to allow it to take more than three 8 way modules.

(KT0072)

F3200 AS4428 FIP STD CAB 6AMP 1U Gas Control Pre-Programmed
The F3200 Single Zone (single risk) Gas Control Panel is designed to meet the CIE requirements of AS 4214-2002, “Gaseous Fire Extinguishing Systems”.

(FP0877)

F3200 AS4428 FIP 8U CAB 3AMP 1U Gas Control Pre-Programmed
The F3200 Single Zone (single risk) Gas Control Panel is designed to meet the CIE requirements of AS 4214-2002, “Gaseous Fire Extinguishing Systems”.

(FP0876)

F3200 8 Zone Input Expansion Kit
F3200 8 Zone Input Expansion. This module features 8 optoisolated digital inputs and 8 relay outputs.

(FP0553)

F3200 8 Relay Expansion Kit
This F3200 relay Board designed for industrial applications requiring isolation between the computer and the external signals it is monitoring and controlling. This module features 8 optoisolated digital inputs and 8 relay outputs.

(FP0554)

Dual Detector Module DDM800 (can use on 4100ESi)
The DDM800 may be used to connect two circuits of conventional 20V detectors and interface them with an MX addressable fire alarm system.

(577.800.006)

Display Extender Kit Additional to FZ3034
Display Extender Kit includes PA0454 16Z display PCB, LM9304 standoff, power leads, diffuser, zone name label master.

(FP0475)

Detector Input Module
The D8000 Detector Input Module interfaces two collective detector circuits onto the MX addressable loop. Each circuit can support 3mA of detector quiescent current and requires a 4.7 Ohm End Of Line resistor.

(DIM800)

D800 Ancillary Housing - IP65 Enclosure for MX Modules
The D800 Ancillary Housing provides an IP55 rated enclosure for all MX modules. It incorporates a window to view the module LED.

(557.201.401)

D51 Duct Housing with Base to Suit MX Detectors
The D51MX consists of a D51 duct sampling housing fitted with a 3B base wired to suit an MX analogue addressable 814P or 814PH photoelectric smoke detector.

(D51MX)

CTA Complete Kit - Back Box, Bezel and Clamp
The Ceiling Tile Adaptor (CTA) is used to prepare a ceiling hole to be able to accept a complete base and detector assembly. It comprises a Bezel (1), Clamp (2) and Back Box (3).

(517.050.060)

CTA Back Box alone Ceiling Tile Adaptor
Ceiling Tile Adaptor Back Box

(517.050.056)
Contact Input Module
The CIM800 Addressable Contact Input Module monitors and supervises two circuits of voltage-free contacts such as outputs from extinguishing systems, ventilation controls, fire door controls, sprinkler flow switches, non-indicating hard contact detectors, etc.

(FA2704)

AVI MK2 Face Plate "Do Not Enter - FM200 Gas Discharged"
Faceplate "Do Not Enter - FM200 Gas Discharged"
3-line Red UV stable
(FA2703)

AVI MK2 3 Line Yellow LED Display
The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI's internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP0854)

AVI MK2 2 to 3 Line Conversion Kit for FP0853
Adds a 3rd LED board to make 3-line red sign
(KT0292)

AVI MK2 2 Line Red LED Display
The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with fire alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI's internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.
(FP1037)
AS4428 Single Loop 15U c/w TGEN 
AUI / PPU
The VIGILANT MX4428 Single Loop panel is a competitively-priced fire detection and alarm system that targets small to medium sized applications (FP0872).

AS4428 Remote Display Unit Wall Mount
The AS4428.1 Remote LCD Display Unit (RDU) is a fire alarm repeater panel compatible with the MX4428 and F3200 range of fire alarm systems. It provides an alphanumeric display of alarms on a 2 line by 40 character LCD and keypad. (FP0787)

AS4428 Remote Display Unit Flush Mount
The AS4428.1 Remote LCD Display Unit (RDU) is a fire alarm repeater panel compatible with the MX4428 and F3200 range of fire alarm systems. It provides an alphanumeric display of alarms on a 2 line by 40 character LCD and keypad. (FP0788)

AS4428 4 Zone Gas Control 7U Door
Gas Control Modules provide indication and control of 1-4 zones of gas extinguishing on F3200 and MX4428 CIE. They are pre-wired modules (requiring appropriate input/output modules). (ME0441)

AS4428 1 Zone Gas Control 1U Bracket
Gas Control modules provide indication and control of 1-4 zones of gas extinguishing F3200 and MX4428 (ME0442)

ADR-M 2.5mA 3K3 EOL PCB 1901-200
The PA0844 version of ADR-M is used as a retrofit where existing detector circuits use a resistor ELD in the range of 1.5 to 3.6 ohms (restrictions apply), and Intrinsically Safe applications – since the intrinsically safe Active ELDs (EOL002ZEx) are no longer available for the standard ADR-M and the replacement units (EOL002B) are not intrinsically safe approved. (PA0844)

Addressable Loop Powered Sounder
MX Loop Powered Sounders use MX TECHNOLOGY communications for control and power. (516.800.)

Adapter between S100 and XM69 Changer
SOLD04 Adapter tube B - adapt SOLD100/101 pole sets for TYCO detector changers and testers (517.001.224)

AAM4 Alarm Acknowledgement Module
The FP0842 Alarm Acknowledge Module provides a facility to locally annunciate a smoke/CO detector alarm, and for the occupant to acknowledge and clear a false fire alarm without the fire brigade being called. (FP0842)

AAM2 Cover, "Pres to Ack‘ Alarm Cancelled"
The AAM2 can be used with the FA2318 face plate to make an Alarm Acknowledgement Module, as FA2318 contains the additional text information and space for the investigation time to be filled in on-site. (FA2318)

AAM2 Alarm Acknowledgement Module
AAM2 Alarm Acknowledge Module (no sounder) is the basis for the AAM2. (ME0420)

901SB Sounder Base (Externally Powered)
The 901SB Addressable Sounder Base provides a sounder function on MX addressable systems. Designed for indoor use, they require an associated detector in order to operate, as each base is controlled by its detector. (516.800.911)

8U Battery Box 550 x 440 x 211mm
8U Battery Box - Empty (FP0576)
850PH MX Addr Photo Heat Detector c/w Isolator

With its ability to detect a wide range of fires from flaming to smouldering types, the 850PH combined smoke and heat multi-sensor detector is the preferred choice for a range of applications including industrial, retail and office environments.

(516.850.051.E)

850P MX Addr Photo Detector c/w Isolator

The 850P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire alarm panel, suits most fire detection applications. The 850P incorporates a unique "mousehole" design optical chamber with superior signal to noise-ratio providing high resilience to dust and dirt which means reduced service costs.

(516.850.052.E)

850H MX Addr Heat Detector c/w Isolator

The 850H is a flexible cost-effective addressable heat detector with most of the features of MX VIRTUAL detector. The 850H reports the temperature to the MX fire alarm panel which allows various detection modes

(516.850.053.E)

850EMT Engineer Manager Tool (complete Kit)

The 850EMT is used to program the address into MX addressable devices. When used with VIGILANT MX1 systems, the 850EMT can also remotely interrogate, address and test 850 Series detectors via a two-way infrared link.

(850EMTK)

814PH MX Photo & Heat Multi Detector c/w coating Thermistor (UK)

The 814P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique

(516.800.510)

814P MX Photo Optical Smoke Detector

The 814P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique

(516.800.517)

814I Ionisation Smoke Detector

Tyco 814I detectors are offered for old specifications which still call for ionisation smoke detectors. The 814CH and 814PH detectors offer improved performance and lower false alarms for most smoke detection applications.

(516.800.512)

814CH MX Carbon Monoxide/Heat Detector c/w coating Thermistor (UK)

The 814CH is a state-of-the-art combined CO and heat detector that allows a full set of detection modes to be implemented in the MX fire alarm panels to suit most fire detection applications. The 814CH is particularly well suited to areas and applications where smoke detector positioning is difficult or where smoke detectors are prone to false alarms.

(516.800.511)

800RT MX Detector Removal Tool

800RT M600/M8000 Detector removal tool. Requires Adaptor B and SOLIO 100 pole

(516.800.917)

5B 5" Universal Mounting Base

The 5B Universal Base is compatible with both the 614 collective series and the MX analogue addressable series of detectors and functional bases.

(517.050.017)

5B 5" Universal Isolator Mounting Base

(517.050.018)

50W 8U T-GEN Building OWS 1986-2 BOWS

The VIGILANT Building Occupant Warning System (BOWS) is a self-contained AS 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Zone-based non-emergency paging options, IP remote audio connectivity and multiple audio connectivity make the VIGILANT BOWS a versatile unit ideally suited to a variety of building occupant warning applications.

(PP1021)

4B-I Isolator Base

The 4B-I Isolator Base serves as both a base for an 814 Series MX detector and a protection device against loop short-circuits, monitoring the voltage on the MX addressable loop. When a short circuit is detected, the 4B-I isolates the affected section whilst allowing the rest of the addressable loop to function normally.

(517.050.043)

4B-EM 4" Euro Mount Back Box

The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations

(517.050.052)

4B-DHM 4" Deck-head Mount

The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations

(517.050.051)
4B-C Continuity Base
The 4B-C Continuity Base is used for most installations involving 850 Series detectors, as it allows the detector’s in-built short circuit isolation function to be in-circuit when the detector is fitted and ensures continuity is maintained when the detector is removed.

(517.050.042)

4B Detector Base
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 814 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations.

(517.050.041)

100W 8U T-GEN OWS 1986-3 BOWS
The VIGILANT Building Occupant Warning System (BOWS) is a self-contained AS 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Zone-based non-emergency paging options, IP remote audio connectivity and multiple audio connectivity make the VIGILANT BOWS a versatile unit ideally suited to a variety of building occupant warning applications.

Faceplate “Fire Alarm - Do Not Enter” 2-line Red UV stable

AVI MK2 Face Plate “Extinguishing System Inoperative”
Faceplate “Extinguishing System Inoperative” 3-line Yellow UV stable

AVI MK2 3 Line Yellow LED Display
The AVI MK2 is an illuminated warning sign that produces distinct audible and visual indication of an emergency. It is designed for use with the alarm or gaseous fire extinguishing systems, or other applications where clear audio-visual warning is required. On activation, the AVI’s internal LEDs illuminate the lettering on the 2 or 3 line sign faceplates and the internal loudspeaker produces either ISO 8201 or AS 2220 audible warning signals.

AVI MK2 2 to 3 Line Conversion Kit for FP0853
Adds a 3rd LED board to make 3-line red sign

Detectors Conventional Bases

5B 5" Universal Mounting Base
The 5B Universal Base is compatible with both the 614 collective series and the MX analogue addressable series of detectors and functional bases.

(517.050.017)

1 total products.
Detectors Conventional Intrinsically Safe

**MR601TEX High Performance Optical Intrinsically Safe**
The MR601TEX has been developed to overcome the slower response of the optical detectors to hot burning fires, by increasing the sensitivity of the optical detector when it is associated with a rapid change in temperature.

(516.054.011.y)

**MDU601EX Enhanced Heat and Carbon Monoxide Detector**
The MDU601EX detector combines the features of both the MU601EX detector and the MD601EX detector to provide a combined CO and Rate of Rise Heat Detector where the sensitivity of the CO detector is enhanced in response to a fast rate of change of temperature.

(516.061.001)

**MD611EX Fixed Temperature Heat Detector**
Where environmental conditions rule out the use of smoke detectors, MD601Ex/MD611Ex heat detectors may provide an acceptable, though less sensitive, alternative.

(516.052.041)

**MD601EX Rate of Rise Heat Detector**
Where environmental conditions rule out the use of smoke detectors, MD601Ex/MD611Ex heat detectors may provide an acceptable, though less sensitive, alternative.

(516.052.051)

4 total products.
Detectors Conventional Smoke

TYCO 614P Conventional Photo Optical Detector

The 614P is capable of detecting the visible smoke produced by materials which smoulder or burn slowly, i.e. soft furnishings, plastic foam etc., or ‘smoke’ produced by overheated but unburnt PVC.

(516.600.301)

TYCO 614CH Conventional Carbon Monoxide Detector

The 614CH fire detector provides very early warning of slow smouldering fires. The CO fire detector is well suited to many applications where heat detection is insufficient but smoke detection causes unwanted alarms. As CO travels more freely than smoke, the positioning of CO fire detectors is more flexible.

Detectors GEN6

850PH MX Addr Photo Heat Detector c/w Isolator

With its ability to detect a wide range of fires from flaming to smouldering types, the 850PH combined smoke and heat multi-sensor detector is the preferred choice for a range of applications including industrial, retail and office environments.

(516.850.051.E)
Detectors GEN6 Bases

4B-I Isolator Base
The 4B-I Isolator Base serves as both a base for an 814 Series MX detector and a protection device against loop short circuits, monitoring the voltage on the MX addressable loop. When a short circuit is detected, the 4B-I isolates the affected section whilst allowing the rest of the addressable loop to function normally.

(517.050.043)

4B-EM 4" Euro Mount Back Box
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations.

(517.050.052)

4B-DHM 4" Deck-head Mount
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations.

(517.050.051)

4B-C Continuity Base
The 4B-C Continuity Base is used for most installations involving 850 Series detectors, as it allows the detector's in-built short circuit isolation function to be in-circuit when the detector is fitted and ensures continuity is maintained when the detector is removed.

(517.050.042)

4B Detector Base
The 4B Universal Base contains no electronics and is suitable for indoor applications of the 614 series conventional (non-addressable), 814 and 850 series analogue addressable detectors. It provides excellent space for cable access and terminations.

Detectors MX

814PH MX Photo & Heat Multi Detector c/w coating Thermistor (UK)
The 814PH is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique (516.800.510)

814P MX Photo Optical Smoke Detector
The 814P is a state-of-the-art smoke detector using a photoelectric sensor which, in conjunction with the MX fire indicator panel (CIE), suits most fire detection applications including smoke management systems. The smoke sensors incorporate a unique (516.800.517)

814I Ionisation Smoke Detector
Typo 814I detectors are offered for old specifications which still call for ionisation smoke detectors. The 814CH and 814PH detectors offer improved performance and lower false alarms for most smoke detection applications. (516.800.512)

814CH MX Carbon Monoxide/Heat Detector c/w coating Thermistor (UK)
The 814CH is a state-of-the-art combined CO and heat detector that allows a full set of detection modes to be implemented in the MX fire alarm panels to suit most fire detection applications. The 814CH is particularly well suited to areas and applications where smoke detector positioning is difficult or where smoke detectors are prone to false alarm. (516.800.511)

MX Sounder Module
The SNM800 Sounder Notification Module can be used to switch an external power source to sounders, extinguishing devices or other auxiliary equipment.
(SNM800)

MIO800 Multi Input Output Module (can use on 4100ESi)
The MIO800 Multi-Input Output Module allows multiple input and output connections to be made between external equipment and the MX DIGITAL loop. Three inputs and two outputs are provided.
(555.800.065)

DIN Rail Mounting Kit
(557.201.303)

Mini Input Module
The MIM800 Mini Input Module monitors a voltage-free contact and transmits its state to the CIE. It can be programmed to monitor either Normally Open (default) or Normally Closed contacts.
(MIM800)

D800 Ancillary Housing - IP65 Enclosure for MX Modules
The D800 Ancillary Housing provides an IP65 rated enclosure for all MX modules. It incorporates a window to view the module LED.
(557.201.401)

Contact Input Module
The CIM800 Addressable Contact Input Module monitors and supervises two circuits of voltage-free contacts such as outputs from extinguishing systems, ventilation controls, fire door controls, sprinkler flow switches, non-indicating hard contact detectors, etc.
(CIM800)
Door Holders

Magnetic Door Holder Wall Mounted 25kg
The FP0101 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated. (FP0101)

Magnetic Door Holder Release Switch
The EA0405 Electromagnetic Door Holder Release is designed to allow fire and smoke doors to be opened manually. A standard switch plate mounting is used. A momentary action switch de-energises the door holder allowing the door to open. (EA0405)

Magnetic Door Holder Floor Mounted 40kg
The EA0409 Floor Mount Door Holder comprises of a Box and Door Holder that will retain a load of 25kg. The Box provides a convenient attractive cover protecting the door holder from accidental damage. (EA0409)

Magnetic Door Holder 300mm Straight
The EA0408 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated. (EA0408)

Magnetic Door Holder 150mm Straight
The EA0407 Electromagnetic Door Holder is designed to hold fire and smoke doors open under normal conditions, but automatically close under their own spring return mechanism when a fire or smoke alarm system is activated. (EA0407)

(MIM800)

LIM800 Line Isolator Module
The LIM800 Line Isolator Module is designed to be used on the MX addressable controller loop circuits.
(545.800.004)

Dual Detector Module DDM800 (can use on 4100ESi)
The DDM800 may be used to connect two circuits of conventional 20V detectors and interface them with an MX addressable fire alarm system.
(577.800.006)

Detector Input Module
The CIM800 Addressable Contact Input Module monitors and supervises two circuits of voltage-free contacts such as outputs from extinguishing systems, ventilation controls, fire door controls, sprinkler flow switches, non-indicating hard contact detectors, etc.

MX1 AS4428 Panels

AS4428 Single Loop 15U c/w TGEN AUI / PPU

The VIGILANT MX4428 Single Loop panel is a competitively-priced fire-detection and alarm system that targets small to medium-sized applications.

(FP0872)

1 total products.
MX1 AS7240 Panels

MX1 Single Loop 8U Panel 3U Blank (fit brigade kit separately)

The simple and cost effective solution for small to medium installations

The VIGILANT MX1 is an innovative, networkable, multi-loop analogue addressable fire indicator panel incorporating the latest technology and complying with the ISO-based AS 7240.2-2004 standard and including an integrated Fire Brigade Panel to AS 4428.3-2004.

(FP1040)

MX1 Single Loop 15U Panel 3U Blank

The Vigilant MX1 is an innovative single loop analogue addressable fire indicator panel incorporating the latest technology. It complies with AS 4428.3-2004, AS 7240.4-2004. Its support for Tyco MX technology, fuzzy logic detection algorithms and powerful control functions make it suitable for a wide range of fire protection applications for small to medium size systems and those in hazardous areas.

(FP0948)

MX1 Options

MX1 Loop Card Kit

The MX Digital Loop Card provides MX loop communications for the Simplex 4100ESi fire alarm panel via a single electrically isolated MX Digital loop. It supports up to 250 MX devices - detectors and modules - and provides up to 350mA of loop power.

(FP0950)
**MX1 Responders**

**MXR Responder in Box**

(FP0824)

**MX4428 ADR-M 4mA Detector Current 1901-116**

The FP0755 version of ADR supports the 15V MCP, the 614 series of detectors and all the other detectors from earlier versions of ADR, along with some new programmable circuit types.

(FP0755)

**MX Loop Filter Board**

The MXP Loop Filter board is available for fitting to an MXP in order to further improve common-mode interference suppression that may occur as a result of the MXP-detector loop not being adequately separated from power wiring, BLI motors etc.

MX1 Tools

850EMT Engineer Manager Tool (complete Kit)

The 850EMT is used to program the address into MX addressable devices. When used with VIGILANT MX1 systems, the 850EMT can also remotely interrogate, address and test 850 Series detectors via a two-way infrared link.

(850EMTK)
MX4428 and MX1 Panels

T-GEN / QE90 Microphone Flat 4-way plug (ECP9702 only)
The hand held dynamic microphone is fitted with a press-to-talk button. It is suitable for plugging into T-GEN 50 and QE90 to provide emergency PA and recording of digitised speech messages.
(ME0290)

Isolation Amplifier, 100V, 50W
The FP0875 Isolation Amplifier connects to an existing 100V speaker line and reproduces this signal at up to 50W load on a separate supervised 100V line. It is suitable for use with speech and music as well as with warning tones.
(FP0875)

Power Supplies In Cabinets

VESDA Power Supply in Cabinet
24VDC 2A to match VESDA LaserPlus
This Series 1948 Power Supply is designed match the VESDA LaserPLUS and LaserSCANNER detectors in size and colour.
(FP0852)

PSU 24VDC 12A (PSU2412F)
Mounted in 8U x 180 Battery Box
FP0803 comprises an ME0343 (PSU2412F 2U rack mounted) power supply for AS 1603.4 & AS 4428 MX4428/F4000 mounted within the FP0766 8U 19" rack battery box.
(FP0803)

Power Supply 1948 Series 24VDC 2A
Series 1948 Power Supplies are designed specifically for use in fire alarm systems. They provide a compact, self-contained 24 volts dc mains power supply.

Remote Indicators

Round Remote Indicator 75mm Dia - FIRE IN LIFT SHAFT
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E527)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOM
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E523)

Round Remote Indicator 75mm Dia - FIRE ALARM IN ROOF
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E526)

Round Remote Indicator 75mm Dia - FIRE ALARM IN DUCT
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E525)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CUPBOARD
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E529)

Round Remote Indicator 75mm Dia - FIRE ALARM IN CONCEALED SPACE
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector
(E524)

Round Remote Indicator 75mm Dia - FIRE ALARM ABOVE
The E500 Mk2 range of remote indicators provide remote indication of an alarm condition on a fire detector

Solo Test Equipment

Thorn S330 Smoke Detector Tester
SOL0330 Aerosol dispenser for use with all detector ranges. Connects directly to S100/S101 poles.
(517.001.255)

Smoke Detector Test Kit Includes X100, X200, X330 and X600
SOL0811 Smoke detector test kit including SOL0330 aerosol dispenser, SOL0200 detector removal tool, SOL0100 pole, SOL0101 extension tube and SOL0610 equipment bag. 800RT and SOL0704 may be ordered separately.
(X811)
Solo Test Equipment Accessories

Thorn S200 Universal Detector Removal Tool - Requires X100/X101
SOL200 Universal detector changer for use with various manufacturers detectors - not suitable for M600/900 series low profile. Connects directly to SOLO100/101 poles
(517.001.240)

Thorn S100 Telescopic Pole 1.26 - 4.5m Fibreglass
SOLO100 Telescopic pole 1.26m to 4.5m
(517.001.230)

Adapter between S100 and XM69 Changer
SOL0104 Adaptor tube B - adapts SOLO100/101 pole sets for TYCO detector changers and testers
(517.001.224)

800RT MX Detector Removal Tool
800RT M600/M800 Detector removal tool. Requires Adaptor B and SOLO 100 pole

Tone Generators BOWS

50W 8U T-GEN Building OWS 1986-2 BOWS
The VIGILANT Building Occupant Warning System (BOWS) is a self-contained AS 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Zone-based non-emergency paging options, IP remote audio connectivity and multiple audio connectivity make the VIGILANT BOWS a versatile unit ideally suited to a variety of building occupant warning applications.

(FP1021)

100W 8U T-GEN OWS 1986-3 BOWS
The VIGILANT Building Occupant Warning System (BOWS) is a self-contained AS 2220 or ISO 8201 Alert and Evacuate tone generator, with integral power supply, digitised speech messages, and PA microphone. It has been designed to connect directly to a fire alarm panel, but can also be used as a stand-alone unit. Vehicle Bracket Over Centre Style to Suit 4.5kg DCP Fire Extinguisher
Vehicle Bracket Over Centre Style to Suit 4.5kg DCP Fire Extinguisher
(212004)

Tamperproof Seals Yellow Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214012)

Tamperproof Seals White Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214011)

Tamperproof Seals Red Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214010)

Tamperproof Seals Purple Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214009)

Tamperproof Seals Pink Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214008)

Tamperproof Seals Orange Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214007)

Tamperproof Seals Grey Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214006)

Tamperproof Seals Green Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214005)

Tamperproof Seals Blue Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214004)

Tamperproof Seals Black Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of the equipment that may be used or misused.
(214003)

Plastic Bag 9.0kg DCP Fire Extinguisher
These plastic bags are designed to protect your fire extinguishers in dusty / harsh environments such as manufacturing facilities or paint workshops. Manufactured from UV stable material they are also suitable for protecting fire extinguishers from the elements when used in an outdoor location.
(214002)

Plastic Bag 4.5kg DCP Fire Extinguisher
These plastic bags are designed to protect your fire extinguishers in dusty / harsh environments such as manufacturing facilities or paint workshops. Manufactured from UV stable material they are also suitable for protecting fire extinguishers from the elements when used in an outdoor location.
(214001)
Metal Split Ring for Date Tag Pack 100
This maintenance tag ring is used to attach maintenance service tags to items of fire equipment. The maintenance tag ring is of a split ring type and is made from steel.

(214013)

Metal Cabinet fits 9.0kg DCP Fire Extinguisher 003 Lock and Break Glass
Protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse and theft.

(211001)

Metal Cabinet fits 4.5kg DCP Fire Extinguisher 003 Lock and Break Glass
Protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse and theft.

(211002)

Maintenance Date Tag Punch
This maintenance service tag punch is used to punch maintenance service tags in accordance with AS1851:2012. It is used to define the date that the fire equipment first came into service and also what month the services have been carried out in.

(214015)

Maintenance Date Tag Aluminium Pack 100
Maintenance tags are a requirement of AS1851:2012 and are used to define the date that the fire equipment first came into service and also what month the services have been carried out in.

Heavy Duty Vehicle Bracket to Suit 2.5kg DCP Fire Extinguisher
(212001)

Foam ID Sign
This fire extinguisher identification sign allows fast and easy identification of an AFFF air/foam type fire extinguisher.

(213004)

Fire Extinguisher Service Scales 50kg
These high quality digital scales are ideal for weighing fire extinguishers as required by AS1851:2012.

(1000-8000)

Fire Extinguisher Location Sign 150mm x 225mm Right Angle
Fire extinguisher location signs are a requirement of AS2444:2001 and are required to identify the location of any fire extinguisher. This sign has an angled section that can be fixed to a wall and allows easy location of a fire extinguisher in an area such as a corridor where the fire extinguisher has been placed in a recess and is not immediately obvious.

(213021)

Fire Extinguisher Location Sign 150mm x 225mm
Fire extinguisher location signs are a requirement of AS2444:2001 and is required to identify the location of any fire extinguisher.

(213020)

Fire Blanket Location Sign 150mm x 225mm Right Angle
Fire blanket location signs are a requirement of AS2444:2001 and are required to identify the location of any fire blanket. This sign has an angled section that can be fixed to a wall and allows easy location of a fire blanket in an area such as a kitchen where the fire blanket has been placed in a recess and is not immediately obvious.

(213023)

Fire Blanket Location Sign 150mm x 225mm
This fire blanket location sign is a requirement of AS2444:2001 and is required to identify the location of any fire blanket.

(213022)

Fire Blanket 1.8m x 1.8m
This high quality 1.8m x 1.8m fire blanket is the largest size available. It is ideal for commercial kitchen and workshop use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215004)

Fire Blanket 1.2m x 1.8m
This high quality 1.2m x 1.8m fire blanket is ideal for commercial kitchen and workshop use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215003)

Fire Blanket 1.2m x 1.2m
This high quality 1.2m x 1.2m fire blanket is ideal for home or small kitchen use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215002)

Fire Blanket 1.0m x 1.0m
This high quality 1.0m x 1.0m fire blanket is ideal for home or small kitchen use. The fire blanket is fixed using a simple single fixing such as a hook or screw.

(215001)
Fibreglass Cabinet fits 9.0kg DCP Fire Extinguisher 003 Lock & Break Glass
This high quality fibreglass fire extinguisher cabinet is designed to protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse and theft. (211004)

Fibreglass Cabinet fits 9.0kg DCP Fire Extinguisher
This quality fibreglass fire extinguisher cabinet is designed to protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse. (211003)

CO2 ID Sign
This fire extinguisher identification sign allows fast and easy identification of an CO2 type fire extinguisher. (213002)

Cannon Style Vehicle Bracket to Suit 9.0kg DCP Fire Extinguisher
Cannon Style Vehicle Bracket to Suit 9.0kg DCP Fire Extinguisher (212007)

Cannon Style Vehicle Bracket to Suit 4.5kg DCP Fire Extinguisher
Cannon Style Vehicle Bracket to Suit 4.5kg DCP Fire Extinguisher (212006)

ABE Powder ID Sign
This fire extinguisher identification sign allows fast and easy identification of an ABE type fire extinguisher. (213001)

9.0L Water Fire Extinguisher
Air Water fire extinguisher is suitable for the following Applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- Do not use on E Class fires
(204001)

9.0L Foam Fire Extinguisher
Foam fire extinguisher is suitable for the following Applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- Do not use on E Class fires
(203001)

9.0kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201008)

7.0L Wet Chemical Fire Extinguisher
Foam fire extinguisher is suitable for the following Applications:
- A Class Fires (paper, wood, textiles)
- F Class Fires including cooking oils & fats
(205002)

5.0kg CO2 Fire Extinguisher
CO2 fire extinguisher is suitable for the following Applications:
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(202003)

4.5kg ABE Powder Fire Extinguisher - HP
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201007)

4.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201006)

3.5kg CO2 Fire Extinguisher
CO2 fire extinguisher is suitable for the following Applications:
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(202002)

2.5L Wet Chemical Fire Extinguisher
Foam fire extinguisher is suitable for the following Applications:
- A Class Fires (paper, wood, textiles)
- F Class Fires including cooking oils & fats
(205001)
2.5kg ABE Powder Fire Extinguisher

ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

(201005)

2.0kg CO2 Fire Extinguisher

CO2 fire extinguisher is suitable for the following Applications:
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

(202001)

1.0kg ABE Powder Fire Extinguisher

ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

This fire extinguisher identification sign allows fast and easy identification of an AFFF air/foam type fire extinguisher (213004)

Fire Extinguisher Service Scales 50kg
These high quality digital scales are ideal for weighing fire extinguishers as required by AS1851:2012. (1000-8000)

Fire Extinguisher Location Sign 150mm x 225mm Right Angle
Fire extinguisher location signs are a requirement of AS2444:2001 and are required to identify the location of any fire extinguisher. This sign has an angled section that can be fixed to a wall and allows easy location of a fire extinguisher in an area such as a corridor where the fire extinguisher has been placed in a recess and is not immediately obvious. (213021)

Fire Extinguisher Location Sign 150mm x 225mm
This fire extinguisher location sign is a requirement of AS2444:2001 and is required to identify the location of any fire extinguisher. (213020)

Fire Blanket Location Sign 150mm x 225mm Right Angle
Fire blanket location signs are a requirement of AS2444:2001 and are required to identify the location of any fire blanket. This sign has an angled section that can be fixed to a wall and allows easy location of a fire blanket in an area such as a kitchen where the fire blanket has been placed in a recess and is not immediately obvious. (213023)

Fire Blanket Location Sign 150mm x 225mm
This fire blanket location sign is a requirement of AS2444:2001 and is required to identify the location of any fire blanket. (213022)

Fibreglass Cabinet fits 9.0kg DCP Fire Extinguisher 003 Lock & Break Glass
This high quality fibreglass fire extinguisher cabinet is designed to protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse and theft. (211004)
Fibreglass Cabinet fits 9.0kg DCP
Fire Extinguisher
This quality fibreglass fire extinguisher cabinet is designed to protect your fire extinguishers from the environment and reduce the opportunity for intentional misuse.
(211003)

CO2 ID Sign
This fire extinguisher identification sign allows fast and easy identification of an CO2 type fire extinguisher.
(213002)

Clamp For Hose Reels

Cannon Style Vehicle Bracket to Suit 9.0kg DCP Fire Extinguisher
Cannon Style Vehicle Bracket to Suit 9.0kg DCP Fire Extinguisher
(212007)

Cannon Style Vehicle Bracket to Suit 4.5kg DCP Fire Extinguisher
Cannon Style Vehicle Bracket to Suit 4.5kg DCP Fire Extinguisher
(212006)

ABE Powder ID Sign
This fire extinguisher identification sign allows fast and easy identification of an ABE type fire extinguisher.

Spare Parts

Tamperproof Seals Yellow Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214012)

Tamperproof Seals White Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214011)

Tamperproof Seals Red Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214010)

Tamperproof Seals Purple Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214009)

Tamperproof Seals Pink Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214008)

Tamperproof Seals Orange Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214007)

Tamperproof Seals Grey Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214006)

Tamperproof Seals Green Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214005)

Tamperproof Seals Blue Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.
(214004)

Tamperproof Seals Black Pack 96
The anti tamper seal or security tie is most commonly used to secure the safety pin to a fire extinguisher and easily identifies use / misuse.
Security ties can also be used to secure hose reel nozzles and also secure any other item of fire equipment that may be used or misused.

Plastic Bag 9.0kg DCP Fire Extinguisher
These plastic bags are designed to protect your fire extinguishers in dusty / harsh environments such as manufacturing facilities or paint workshops. Manufactured from UV stable material they are also suitable for protecting fire extinguishers from the elements when used in an outdoor location.
(214002)

Plastic Bag 4.5kg DCP Fire Extinguisher
These plastic bags are designed to protect your fire extinguishers in dusty / harsh environments such as manufacturing facilities or paint workshops. Manufactured from UV stable material they are also suitable for protecting fire extinguishers from the elements when used in an outdoor location.
(214001)

Metal Split Ring for Date Tag Pack 100
This maintenance tag ring is used to attach maintenance service tags to items of fire equipment. The maintenance tag ring is of a split ring type and is made from steel.
(214013)

Maintenance Date Tag Punch
This maintenance service tag punch is used to punch maintenance service tags in accordance with AS1851:2012. It is used to define the date that the fire equipment first came into service and also what month the services have been carried out in.
(214015)

Maintenance Date Tag Aluminium Pack 100
Maintenance tags are a requirement of AS1851:2012 and are used to define the date that the fire equipment first came into service and also what month the services have been carried out in.

Fire Blankets

Fire Blanket 1.8m x 1.8m
The high quality 1.8m x 1.8m fire blanket is the largest size available. It is ideal for commercial kitchen and workshop use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215004)

Fire Blanket 1.2m x 1.8m
This high quality 1.2m x 1.8m fire blanket is ideal for commercial kitchen and workshop use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215003)

Fire Blanket 1.2m x 1.2m
This high quality 1.2m x 1.2m fire blanket is ideal for home or small kitchen use. The fire blanket is fixed using 2 simple fixings such as hooks or screws.

(215002)

Fire Blanket 1.0m x 1.0m
This high quality 1.0m x 1.0m fire blanket is ideal for home or small kitchen use. The fire blanket is fixed using a simple single fixing such as a hook or screw.

Portable

9.0L Water Fire Extinguisher
Air-Water fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- The Air Water Extinguisher should not be used on B or E class fires

9.0L Foam Fire Extinguisher
Foam fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- Do not use on E Class fires

9.0kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

7.0L Wet Chemical Fire Extinguisher
Foam fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

5.0kg CO2 Fire Extinguisher
CO2 fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

4.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

4.5kg ABE Powder Fire Extinguisher
HP
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

3.5kg CO2 Fire Extinguisher
CO2 fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

2.5L Wet Chemical Fire Extinguisher
Foam fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- F Class Fires including cooking oils & fats

2.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

2.0kg CO2 Fire Extinguisher
CO2 fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as Oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

1.0kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

ABE Powder

9.0kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201008)

4.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201007)

4.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201006)

2.5kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)
(201005)

1.0kg ABE Powder Fire Extinguisher
ABE fire extinguisher is suitable for the following applications:
- A Class Fires (paper, wood, textiles)
- B Class Fires (flammable liquid fires such as oils, paints and solvents)
- E Class Fires (energised electrical fires such as switchboards and electrical motors)

Firefighting Agents

Silvex Plus Class A Bushfire Foam
20 L Drum
Class A foam agents are specifically designed to combat fires involving ordinary combustible materials, like wood, paper, coal, rubber, and plastic by making water more effective.
(434463)

Silvex Plus Class A Bushfire Foam
1000 L Tote
Class A foam agents are specifically designed to combat fires involving ordinary combustible materials, like wood, paper, coal, rubber, and plastic by making water more effective.
(436651)

Purple-K Extinguisher Powder
Purple-K agent is one of the most effective of the ANSUL dry chemicals against Class B fires.
(009335)

Melt-X Extinguisher Powder
Ansul Melt-X may be used on sodium, potassium, sodium-potassium alloy, and magnesium fires.
(009328)

Lith-X Extinguisher Powder
Ansul Lith-X was developed for use on lithium fires, and will also extinguish magnesium, sodium, and potassium fires.
(009334)

Foray Extinguisher Powder
FORAY dry chemical agent is the only one of the ANSUL dry chemical agents that provides Class A fire suppression.
(053080)

Foam Pump 240V
The ANSUL® Foam Concentrate Transfer Pump is useful for transferring foam concentrates from pails, drums, totes, or bulk shipments into ANSUL bladder tanks or atmospheric tanks.
(427585)

Foam Proportioning Testing
A fire test, the only true measure of foam concentrate performance, is the cornerstone of the ANSUL® Foam Testing Service. It has been designed to ensure that the quality and performance of foam concentrates in the field remain within acceptable specifications.
(FOTESP)

Ansulite 3X6 ARC 200 L Drum

ANSULITE® ARC (Alcohol-Resistant Concentrate) 3% or 6% Freeze-Protected AR-AFFF (Alcohol-Resistant – Aqueous Film-Forming Foam) Concentrate is formulated from special fluorochemical and hydrocarbon surfactants, a high molecular weight polymer, and solvents.

(426965)

Ansulite 3X6 ARC 20 L Pail

(426936)

Ansulite 3X3 LV ARC 200 L Drum

ANSULITE® 3X3 Low-Viscosity AR-AFFF (Alcohol-Resistant Concentrate) 3% or 6% Freeze-Protected AR-AFFF (Alcohol-Resistant – Aqueous Film-Forming Foam) Concentrate is formulated using a newly patented and proprietary technology. The foam concentrate has a dramatically reduced viscosity as compared to other listed polar-solvent type AR-AFFF concentrates on the market. This reduced viscosity enhances performance in all types of foam proportioning equipment including inline eductors, balanced pressure systems, and built-in systems aboard CFR vehicles.

Severe Duty Monitor Akron 3524 3" Flange x 2.5" NH 4800 Lpm

Severe Duty Monitor Akron 3491 3" Flange x 2.5" NH 2900 Lpm

The Omega SD Severe Duty brass monitors utilize a unique ball bearing free joint design ideal for high usage applications.

The Severe-Duty, multi-purpose monitor is designed to withstand continuous operation while mounted on heavy-duty equipment like off-road fire, construction, mining, or landfill vehicles.

Nozzle service kits are designed to repair nozzles using replacement parts. Kits come with a variety of parts, all in different sizes.

Quick reel powered reels have been produced to take the hard work out of rewinding long and heavy lengths of hose by providing a powerful and consistent retraction that greatly assists in hose retrieval.

Quik Reel self-guiding reels have been produced to take the hard work out of rewinding long lengths of hose by providing a powerful and consistent retraction that greatly assists in hose retrieval.

The Blitzfire Portable Monitor is manufactured from lightweight high strength aluminum alloy that has been hard coat anodized and powder coated for ultimate corrosion protection.

For use with water or foam, the WOM-3 (formerly WOM-1) is a master stream device for fixed locations.

The Akron Ozzie 911 Oscillating Monitor has a powerful sweeping water stream through its water driven motor which moves the outlet back in a wave like motion.

(150-212) Foam Nozzle Viper 3012 Pistol Grip
230 Lpm
60 GPM Low Expansion Foam Nozzle, 10:1 Expansion. Viper Foam Equipment is constructed of E-lite aluminum that is heat anodized for durability. Viper Foam Eductors and foam nozzles work on the Venturi Principle to mix foam concentrate and air into the water to make finished foam
(PVB3012) Foam Nozzle Self Educting TFT ZMF32A 2000 Lpm
The Task Force Tip® MASTER FOAM nozzle is a simple and rugged self-educting foam nozzle with superior stream quality and reach.
(ZMF32A) Foam Nozzle Ansul 427463 1325 Lpm
The ANSUL® Master Foam Nozzle is an accurate and durable self-educting foam nozzle with superior stream quality and reach.
(427463) Foam Nozzle Akrofoam 4470 2.5" NH c/w Pick Up Tube 1900 Lpm
The AkroFoam foam nozzle are self-educting master stream nozzles designed for educting foam at flow rates up to 4600 lpm.
(44700005) Foam Inductor Macron Z4 BSP 200 Lpm
Product Features
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 l/min construction
(101825013 ) Foam Inductor Macron Z2 BSP 200 Lpm
Product Features
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 l/min construction
(101825013 ) Foam Branch Medium Expansion Macron MX50 200 Lpm
Capable of producing large quantities of foam in situations requiring rapid foam cover with low water usage, they are fully compatible with Macron's Variable Inline Foam Inductors and are available with an optional on/off ball valve on all models.
(5168) Foam Branch Medium Expansion Macron MX100 400 Lpm
Capable of producing large quantities of foam in situations requiring rapid foam cover with low water usage, they are fully compatible with Macron's Variable Inline Foam Inductors and are available with an optional on/off ball valve on all models.
(5164) Foam Branch Low Expansion Macron LX50 200 Lpm
Designed to produce long coherent throws of low expansion foam using all types of foam concentrate, they are fully compatible with Macron's Variable Inline Foam Inductors and are available with on/off ball valve as standard on all models.
(19278+11232) Foam Branch Low Expansion Macron LX100 400 Lpm
Designed to produce long coherent throws of low expansion foam using all types of foam concentrate, they are fully compatible with Macron's Variable Inline Foam Inductors and are available with on/off ball valve as standard on all models.

(701205)

BIC Male x 50mm BSP Male

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(701204)

BIC Male x 38mm BSP Male

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(701202)

BIC Male Coupling 65mm Hose Tail

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(25408)

BIC Male Coupling 45mm

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(1896)

BIC Male Coupling 38mm Hose Tail

Fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(6356)

BIC Male Blank Plug c/w Chain

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(701201)

BIC Female x 65mm BSP Male

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(701105)

BIC Female x 65mm BSP Female

FirstRESPONSE fire hose couplings are fitted onto the ends of the hose to enable the hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

(701104)
First RESPONSE fire hose couplings are fitted onto the ends of the fire hose to enable the fire hose to be connected to a fire hydrant and also allow other firefighting equipment, such as nozzles, to be attached for the purpose of fighting a fire.

**BIC Female x 50mm BSP Male**

- High quality 201 stainless steel
- Vibration resistant
- Gap free internal design to prevent leaks especially on thinner hoses

Hose Assembly & Testing

Bandit Clamp 76.2mm x 12.7mm
DESCRIPTION
- High quality 201 stainless steel
- Vibration resistant
- Gap free internal design to prevent leaks especially on thinner hoses

Bandit Clamp 50.8mm x 9.53mm
Band-It 50.8mm x 9.53mm Band-It SS Pre-Formed Clamp

Bandit Clamp 34.9mm x 9.53mm

Bandit Clamp 19mm x 152mm Box 25
DESCRIPTION
- High quality 201 stainless steel
- Vibration resistant
- Gap free internal design to prevent leaks especially on thinner hoses

Monitors

Stream Shaper Akron 485 2.5" NH
Inlet: 1.5" (38mm)
Outlet: 2.5" (65mm)
Length: 4" (100mm)
Weight: 3 lbs 12 oz (1.7kg)

Severe Duty Monitor Akron 3524 3" Flange x 2.5" NH 4800 Lpm
The Omega SD Severe Duty brass monitors utilize a unique ball bearing free joint design ideal for high usage applications.
(35240001)

Severe Duty Monitor Akron 3491 3" Flange x 2.5" NH 2900 Lpm
The Severe-Duty, multi-purpose monitor is designed to withstand continuous operation while mounted on heavy-duty equipment like off-road fire, construction, mining, or landfill vehicles.
(34911002)

Oscillating Monitor Blitzfire XXC-33 2000 Lpm
The Blitzfire Portable Monitor is manufactured from lightweight high strength aluminum alloy that has been hard coat anodized and powder coated for ultimate corrosion protection.
(TFTXXC33BIC)

Oscillating Monitor Ansul Wom-3
For use with water or foam, the WCM-3 (formerly WCM-1) is a master stream device for fixed locations.
(400000)

Oscillating Monitor Akron Ozzie 911 1325 Lpm
The Akron Ozzie 911 Oscillating Monitor has a powerful sweeping water stream through its water driven motor which moves the outlet back in a wave like motion.
(911)

Oscillating Foam Monitor Ansul FJM-80 WTO 3785 Lpm
The FJM-80 series of monitors is designed to deliver approximately 1000 gpm (3785 Lpm); however, actual flow rate is dependent on nozzle setting and inlet pressure.
(433806)

Oscillating Foam Monitor Ansul
The MM-1000-4 SS 3785 Lpm
The MM-1000 is designed to deliver approximately 1,000 GPM (3785 LPM), however, actual flow rate is dependant on nozzle choice.
(402826)

Oscillating Foam Monitor Ansul
The MM-1000-3 3785 Lpm
The MM-1000 is designed to deliver approximately 1,000 GPM (3785 LPM), however, actual flow rate is dependant on nozzle choice.
(400276)

Oscillating Foam Monitor Ansul
The Mercury nozzles have excellent straight stream performance and a wide, dense, fully adjustable fog pattern.
(44450001)

Monitor Ansul MM-1000-4 SS 3785 Lpm
The MM-1000 is designed to deliver approximately 1,000 GPM (3785 LPM), however, actual flow rate is dependent on nozzle choice.

Monitor Ansul MM-1000-3 3785 Lpm
The MM-1000 is designed to deliver approximately 1,000 GPM (3785 LPM), however, actual flow rate is dependent on nozzle choice.
(400276)

Monitor Akron Omega 3528 3" Flange x 2.5" NH 4800 Lpm
The Omega XP brass monitor offers maximum travel for optimal coverage in a compact, economical package for industrial and marine environments.
(35284001)

Monitor Akron Mercury 3443 1900 Lpm
This 500 gpm portable monitor is a lightweight, compact size, quick attack monitor. Featuring a 2 1⁄2" inlet with a full time swivel and a 2 1⁄2" outlet.
(3443)

Monitor Akron Mercury 3447 1900 Lpm
The Mercury nozzles have excellent straight stream performance and a wide, dense, fully adjustable fog pattern.
(44470001)

Monitor Akron Omega 3491 3" Flange x 2.5" NH 2900 Lpm
The Severe-Duty, multi-purpose monitor is designed to withstand continuous operation while mounted on heavy-duty equipment like off-road fire, construction, mining, or landfill vehicles.
(34911002)

Hydraulic Motor Suit Severe Duty Monitor
The Severe-Duty, multi-purpose monitor is designed to withstand continuous operation while mounted on heavy-duty equipment like off-road fire, construction, mining, or landfill vehicles.
(34902001)

Foam Nozzle Self Educting TFT ZMF23A 2800 Lpm
The Task Force Tips® MASTER FOAM nozzle is a simple and rugged self-educing foam nozzle with superior stream quality and reach.

Foam Nozzle Self Educting TFT ZMF23A 2800 Lpm
The Task Force Tips® MASTER FOAM nozzle is a simple and rugged self-educing foam nozzle with superior stream quality and reach.
(ZMF23A)

Foam Nozzle Ansul 427463 1325 Lpm
The ANSUL® Master Foam Nozzle is an accurate and durable self-educing foam nozzle with superior stream quality and reach.
(427463)

Foam Nozzle Akrofoam 4470 2.5" NH c/w Pick Up Tube 1900 Lpm
The Akrofoam foam nozzles are self-educing master stream nozzles designed for educating foam at flow rates up to 4800 lpm.

Eductors & Tubes

Foam Tube Akron 0770 Suit 25mm Turbojet
The Akron® Brass Quick Attack Foam Tubes are designed to easily and quickly clamp on to various Akron® foam nozzles.

(0790)

Foam Tube 212 Suit Protek 236
Attaches to Protek nozzle bumpers of Style #366, #372, #366B and #372B.

(150-212)

Foam Nozzle Viper 3012 Pistol Grip 230 Lpm
60 GPM Low Expansion Foam Nozzle. 10:1 Expansion.
Viper Foam Equipment is constructed of 6-lite aluminum that is hard anodized for durability.
Viper Foam Eductors and foam nozzles work on the Venturi Principle to mix foam concentrate and air into the water to make finished foam.

(PVB3012)

Foam Inductor Macron Z4 BSP 400 Lpm
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 L/min construction

(101825039 )

Foam Inductor Macron Z2 BSP 200 Lpm
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 L/min construction

(101825013 )

Foam Eductor Akron Pyrolite In-Line 95 Gpm
Akron Municipal Eductors feature a large, easy to read, and removable metering dial with settings between 0% and 6%.

(3095)

Foam Branch Medium Expansion Macron MX50 200 Lpm
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 L/min construction

(5168)

Foam Branch Medium Expansion Macron MX100 400 Lpm
- Proportioning ratio from 0 to 6%
- Constant proportioning rate
- Works with back pressure up to 2 bar
- Available in 200 and 400 L/min construction

(5164)

Foam Branch Low Expansion Macron LX50 200 Lpm
Designed to produce long coherent throws of low expansion foam using all types of foam concentrate, they are fully compatible with Macron’s Variable Inline Foam Inductors and are available with on/off ball valve as standard on all models.

(19278+11232)

Foam Branch Low Expansion Macron LX100 400 Lpm
Designed to produce long coherent throws of low expansion foam using all types of foam concentrate, they are fully compatible with Macron’s Variable Inline Foam Inductors and are available with on/off ball valve as standard on all models.

Kestrel 5500FW Fire Weather Pro with Link
This Kestrel meter does it all. The Kestrel 5500 provides the same trusted accuracy, reliability, and usability as the original Kestrel 4500. Measure every environmental condition plus wind direction, crosswind and headwind/tailwind. Drop-proof, dust-proof, waterproof and able to withstand extreme environments without damage, your Kestrel weather meter travels with you anywhere you dare to go. The Kestrel 5 series also includes a built-in dual color backlit, extra-strong polycarbonate lens and AA battery operation, along with optional LINK iOS and Android wireless connectivity and app support.

(0855FWLWOR)

Kestrel 5000 Pocket Weather Meter
This Kestrel meter does it all. The Kestrel 5000 provides the same trusted accuracy, reliability, and usability as the original Kestrel 4500. Measure every environmental condition plus wind direction, crosswind and headwind/tailwind. Drop-proof, dust-proof, waterproof and able to withstand extreme environments without damage, your Kestrel weather meter travels with you anywhere you dare to go. A range of carry pouch options makes it even easier to take your Kestrel meter with you.

(0830-AUS)

Kestrel 3000 Pocket Weather Meter
Targeted toward and practically required for wildland firefighters in both fighting fires and controlled burn situations. This Kestrel 3000 model was a principle factor that changed firefighting equipment standards from the previous standard, the belt weather kit. It cut the weight of dated weather packs, confusion, and time, to this minimalist approach that was revolutionry in firefighting, where users lives literally depend on the accurate weather data their Kestrel 3000 provides.

(0820-AUS)

Kestrel 2000 Pocket Weather Meter
This Kestrel meter meets all the needs of the person that needs to know the weather in his or her immediate area. It has a high thermal capacity alloy act as a heat sink, a mesh design separates the flame into smaller burners, and a mesh acts as a physical barrier to the travelling flame front.

(730650010004)

Kestrel 1000 Wind Meter
The Kestrel 1000 is our most basic meter. If all you need is wind measurements, this is our least expensive meter. Every meter we sell has the wind features of the Kestrel 1000. The hand slide-on case makes it durable to throw in your gear bag with no worries.

Knapsacks

Rega Knapsack Vechile Bracket
The Rega Firefighter knapsack steel vehicle bracket is designed to hold your 16 litre Rega Firefighter knapsack securely when in transit. The bracket features multiple supports, an adjustable retaining strap and quick release catch.

(HDVBRK)

Rega Knapsack 16L Back Pack
This very high quality Rega fire fighting knapsack is an ideal alternative to an air/water fire extinguisher. It is designed to extinguish small low intensity fires such as spot fires in a bush fire situation.

The knapsack has a large water capacity, variable jet/fan nozzle, bi-directional pump action and excellent range. It can deliver 1.2lt per minute and is designed to be a comfortable fit utilising two adjustable shoulder straps.

(BPFF)

Genfo 18L Collapsible Knapsack
GENFO Collapsible Knapsack The Genfo Bushfire Fighting Knapsack is designed to assist the user in combating an approaching fire or to control burnoff. The double action pump results in water being sprayed during the inward and outward stroke creating greater efficiency. Manufactured from reinforced canvas and synthetic yarns and designed with a double reinforced bottom, inner breakwater division and flexible thermo-welded water tank.

Weather Meters

Kestrel 5500FW Fire Weather Pro
This Kestrel meter does it all. The Kestrel 5500 provides the same trusted accuracy, reliability, and usability as the original Kestrel 4500. Measure every environmental condition plus wind direction, crosswind and headwind/tailwind. Drop-proof, dust-proof, waterproof and able to withstand extreme environments without damage, your Kestrel weather meter travels with you anywhere you dare to go. A range of carry pouch options makes it even easier to take your Kestrel meter with you.

(0855FWOR)

Kestrel 3000 Pocket Weather Meter
Targeted toward and practically required for wildland firefighters in both fighting fires and controlled burn situations. This Kestrel 3000 model was a principle factor that changed firefighting equipment standards from the previous standard, the belt weather kit. It cut the weight of dated weather packs, confusion, and time, to this minimalist approach that was revolutionary in firefighting, where users lives literally depend on the accurate weather data their Kestrel 3000 provides.

Kestrel 2000 Pocket Weather Meter
The Kestrel 2000 Pocket Weather Meter is the most basic temperature and wind meter in the Kestrel collection, combining a user-friendly interface with highly accurate atmospheric data readings. Targeted toward outdoor enthusiasts, this meter has our patented external sensor, it can read the temperature of air, water or snow.

(0820-AUS)

Kestrel 1000 Wind Meter
The Kestrel 1000 is our most basic meter. If all you need is wind measurements, this our least expensive meter. Every meter we sell has the wind features of the Kestrel 1000. The hard slide-on case makes it durable to throw in your gear bag with no worries.

MAGNUM RIO ADVENTURE

Stay Clean, Stay Light

Created by Hi-Tec, i-Shield is an invisible protective layer that repels water and dirt with ease.

STAY CLEAN

- i-Shield's inherent stain-resistance protects against oil and stains, keeping your footwear cleaner for longer.

STAY LIGHT

- i-Shield repels water and significantly reduces water uptake, keeping your footwear light and comfortable.
